**Khan Academy Kids language to use:*
An optional resource, should you have a personal Apple, Android, or Amazon device at home, is the Khan Academy Kids app. The app offers numerous, valuable reading, math, and language arts activities for students in the lower primary grades. Once downloaded, it is necessary to provide de-identifying information, such as your email address and the first name (consider using a fake name) and age of your child. There are no accounts to be created, and you will not receive a solicitation to provide financial information to start a subscription. If able, please consider this ECASD recommended tool to continue to provide your child with valuable learning experiences.
