We will now be posting a weekly lesson plan template that will be posted on Tuesday mornings. To find this, please see the At Home Learning link on our Manz Webpage. The information posted there will also be found in the same Google Slide we have been using since at home learning has been active. This slide is called 4th Grade Teachers and has wonderful information, learning activities, videos and more! Now that 4th graders are being asked to do 60 minutes of learning a day, we have daily slides of information for them to stay learning while at home.

We will also be starting a new app called Waggle. This is a wonderful source that allows students to practice their Math and ELA. Attached are directions if you could please help your child download this! If you have any questions, please feel free to reach out to us. Waggle is completely new to us as well, so we will do our best to help you with your questions but please be patient with us as we are learning too! Click here to find directions for Waggle.

We also just wanted to thank you all for the amazing work you are doing from home. Adapting to this crazy world has been no easy task so we thank you again for all that you are doing! Teamwork makes the dream work!

Sincerely,

Ms. Bednar, Ms. Dimka, and Mrs. Stowell
