We hope Week 1 of our new plan for online learning went well! Tuesday mornings you will have access to this week's activities the students will be able to complete! To find this, please see the At Home Learning link on our Manz Webpage. The information posted there will also be found in the same Google Slide we have been using since at home learning has been active. This slide is called 4th Grade Teachers and has wonderful information, learning activities, videos and more! Now that 4th graders are being asked to do 60 minutes of learning a day, we have daily slides of information for them to stay learning while at home.

Waggle is an additional fun learning site where kids have the opportunity to practice ELA and Math! We ask that students do the activities on the slides first, and that Waggle is a bonus or extra practice if wanted. Attached are directions if you could please help your child download this, if you haven't already! If you have any questions, please feel free to reach out to us. Just a reminder, Waggle is completely new to us as well, so we will do our best to help you with your questions but please be patient with us as we are learning too! It may be a challenge and some small glitches along the way, but please stick with us as this site is a wonderful learning opportunity for kids! Click [Here to find directions for Waggle](#).

If you need to contact your teacher, please continue to email them or their school phone number as well. Our school phone numbers are linked to our school iPad so that is still a possibility for you to contact us on as well.

Each class will continue to have a Microsoft Teams video chat on Monday's for those who are able to join! Please check your Microsoft Teams app to see what time your class is meeting. This is not required to attend, but we highly encourage all of our students to join, if possible! If you need any help setting up Microsoft Teams, please contact your teacher.

Sincerely,

Ms. Bednar, Ms. Dimka, and Mrs. Stowell
