Create a rainstorm with sounds you can create with your voice, body, or items around your house! You could try this as a "one man band" (all by yourself) or with family members being assigned different roles of the sound story. Suggested order of sounds: 1. Wind, birds chirping (5-10 seconds) gradually leading into... 2. Stronger wind, light raindrops (5-10 seconds) gradually leading into... 3. Heavy rain, then... 4. Heavy rain, with occasional thunder and lightning (maybe strong winds too?) 5. Wind dies down a bit, heavy rain continues, thunder and lightning fade away 6. Light rain 7. Rain ending and sun coming out, birds chirping again You could draw on cards with visuals of each section of your story to help you remember what comes next!	K-3 (4-5 works too!)
