

Good Morning AP Physics Students & Families,

I hope you are all doing well and had a nice Mother's Day yesterday. Good luck to those of you taking the AP Physics C: Mechanics Exam at 11:00 this morning! This week we will start covering topics that were not on this year's AP Exam. Tomorrow we will cover universal gravitation and then cover orbital mechanics on Wednesday with an assignment due Thursday and a Quiz on Friday. If you did not finish taking the practice exam last week make sure to take care of that as soon as possible. Again, continue to check the AP Physics Canvas page for more updates (video announcements/instructions are dated to help you keep pace). As always, if you have any questions don't be afraid to email me.

Mr. Robaidek
