

Greetings,

I have posted this weeks assignment on Canvas. We will continue the process of working on new materials this week. We will be watching videos on building a Carcass and putting Face Frame on it. We call the basic cabinet a Carcass (he never uses the term in the video) and this is the type of cabinet construction we would use for your kitchen cabinets and our final projects (had we been in school). Pre-read the worksheets prior to watching the videos. Pay close attention to the tools and techniques demonstrated.

Please access Canvas and complete the worksheet for the video

Take a photo or scan the completed spreadsheet and send it in for grading via Canvas.

**Please access your previous assignments for any comments or needed corrections.**

If you are having technical issues or do not understand something, please communicate with me and we will get the issue resolved.

Take care and be safe!

Mr. Smith
