

Greetings,

I have posted this weeks assignment on Canvas. We will continue the process of working on new materials this week. We will be shifting gears for this weeks lesson back to a project centered approach. We will be watching a video on turning a platter on a wood lathe. Pre-read the worksheet prior to watching the video. Pay close attention to the tools and techniques demonstrated.

Please access Canvas and complete the worksheet for the video

Take a photo or scan the completed spreadsheet and send it in for grading via Canvas.

Please access your previous assignments for any comments or needed corrections.

If you are having technical issues or do not understand something, please communicate with me and we will get the issue resolved.

Take care and be safe!

Mr. Smith
