

Ms. Boone cboone@ecasd.us

Instructions to set up a student account and logging into the interactive software to complete the course online.

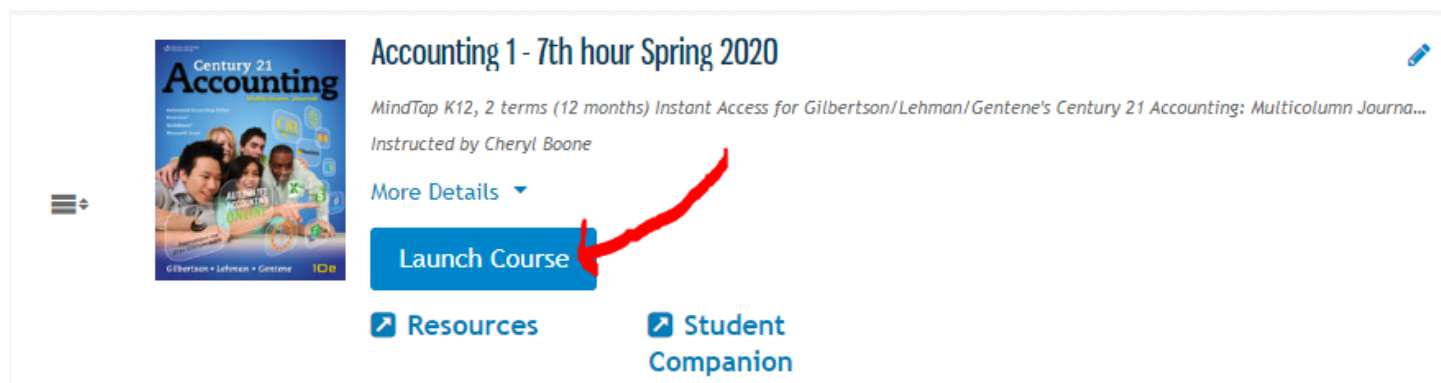

After the extension of the stay-at-home order and much discussion, we have decided to move forward with the online resource in Cengage that will allow you to complete the learning activities in each chapter in Accounting 1 as well as submit them to me for a grade all in the same place. No more snapping a photo and attaching it to an email for me to grade. Honestly, it has been super-hard to read and each page has been taking me 25-35 minutes to grade. The website has videos, written tutorials, and other study aids to help you get started and move throughout the lessons successfully. It can also be considered a complement to your textbook as it follows the same format. You may continue to reference your textbook if that is your preference, but assignments must be done online.

It is IMPORTANT that you follow the steps below:

Part 1: An Accounting Cycle for a Proprietorship: J... 71 activities

Part 2: An Accounting Cycle for a Corporation: En... 23 activities

The first activity to complete is the Chapter 5 Study Guide. If you already did this, you may just copy from your workbook. This will be graded online and entered in the grade book. It is NOT optional. It will also be a good introduction to the website software.

The next activity will be the Chapter 5 Test. It needs to be taken on Tuesday, April 14 and it is timed. You have 60 minutes to complete it. This is longer than you have during class so it shouldn't be a big deal.

Let me know if you have trouble getting into the website and starting on the Study Guide.

Hope you have a good holiday weekend! Be safe! ~~cboone
