Job Title	Medical School Assistant
Department	Elementary Schools
Reports To	Building Principal
Classification	Hourly Classified
Location	District Elementary School
Salary	On Schedule
Length of Contract	School Year

This job description in no way states or implies that these are the only duties to be performed by the employee occupying this position. Employees may be required to follow other job-related instructions and to perform other job-related duties as requested, subject to all applicable state and federal laws. Certain job functions described herein may be subject to possible modification in accordance with applicable state and federal laws.

Job Summary

The Medical School Assistant provides health, physical and instructional services to students and staff under the medical supervision of the school nurse and as directed by the building principal. The Medical School Assistant also prepares and maintains accurate medical records for each student. The Medical School Assistant provides clerical assistance, behavior management support, and assists in other areas of the school as needed. This position also collaborates directly with school nurses, principals, families, and building staff to promote the health and safety of all students.

Essential Job Functions

- Attends to healthcare/physical needs of students including feeding, toileting, and diapering, supporting students with seizures, and handling of medical equipment.
- Maintains confidentiality regarding health, medical and student's category of disability.
- Performs any physical/healthcare procedures as required.
- Interviews students, measures vital signs, such as pulse rate, temperature, blood pressure, weight, and height to detect deviations from normal and observe condition of student, and records information on student's chart.
- Cleans healthcare equipment.
- Inventories and orders healthcare procedures in accordance with approved techniques.
- Performs routine healthcare procedures in accordance with approved techniques.
- Administers prescribed medications and treatments in accordance with approved techniques and written instructions from the physician/licensed prescriber.
 - The School Nurse provides training and consultation for oral medication administration.
- Observes student, records conditions, and reactions, and notifies supervisor, parent/guardian, or physician/licensed prescriber, as appropriate, of student's condition and reaction to drugs, treatments, and significant incidents or deviations from normal and observes condition of student.
- Seeks consultation from Principal/designee, parent/guardian, physician/licensed prescriber, and/or School Nurse, as appropriate, as questions arise regarding a student's care.

- Helps students learn how to become independent with their own healthcare/physical procedures (injections, etc.).
- Supports students in crisis and supports other crisis team members.
- Documents student injuries and infractions.
- Supervises students in a small group setting; administers classroom rules.
- Performs basic clerical duties such as operating of work processing program, record keeping, typing, etc.
- Assists in preparation of materials needed for classrooms, including duplication, lamination, etc.
- Assists in the office with attendance, reception, and clerical duties as needed.

Ancillary Job Functions

- Performs data entry into computer system to maintain school and student records.
- Attends meetings and trainings as directed.
- Performs other related duties as assigned.
