On Top of Spaghetti

<https://www.youtube.com/watch?v=yU2GgcjJcdM>

On top of spaghetti all covered with cheese.
I lost my poor meatball when somebody sneezed.
It rolled off the table, it rolled on the floor,
And then my poor meatball rolled out of the door.
It rolled in the garden and under a bush,
And then my poor meatball was nothing but mush.
The mush was as tasty as tasty could be,
And early next summer it grew to a tree.
The tree was all covered with beautiful moss.
It grew great big meatballs and tomato sauce.
So if you eat spaghetti all covered with cheese,
Hold on to your meatball and don't ever sneeze.

CARNIVAL OF THE ANIMALS

Part Two

The Carnival of the Animals is a lighthearted musical composition of fourteen movements by the French composer Camille Saint-Saëns. He composed it as a musical joke for his students. It is one of the best-known pieces of classical music for children. This is the second set of movements. **Read the directions for each piece, click on the link, and move to the music!**

The Elephant

And now it's time for the dancing elephants! Use one arm as your trunk, the other limbs can move you around the room. Don't forget to dance your trunk back and forth to the beat. Try to find different ways to move your trunk – up and down, side to side, wave it around in a circle, "draw" other shapes or letters in the air in front of you, flick it in small or large motions. Enjoy the dance!

Kangaroos

When there are short, fast sounds in the music, jump around like a kangaroo. When the music stops and then plays a long, low sound, look around for the dangerous animals that might be around you. Hop, hop, hop! Then, stop and look...

Aquarium

Pick a sea creature that you want to be, swimming/crawling/laying around in the aquarium. Have someone at home try and guess what kind of sea creature you are. Switch creatures from time to time, or have someone call out a new creature for you to imitate.
