

Dear ECASD Families and Community Members,

What learning, skills, and attitudes do our young people need to thrive today and navigate the world tomorrow?

This is a question the Eau Claire Area School District is working to answer through our Learner Profile project. We want to be sure that as a school district, every decision we make, every dollar we invest, and every classroom our students enter, lead us in the direction of success in life for every learner.

As a stakeholder of the school district, you can help to answer this question through this [community survey](#). Your voice is essential to ensure we set a course that provides access, opportunities, and success for all students.

The [community survey](#) is the third of four development phases for the Learner Profile. Each phase has involved ECASD students, staff, families, and community members. To learn more about the process please watch [this video](#). To view the current draft of the ECASD Learner profile click [HERE](#).

Thank you for taking an active role in helping the ECASD, where “We challenge minds, build relationships and nurture individual growth to prepare all students for post-secondary success.”
