

THE RUBIK'S

CUBE

PART 2

By Ms. Nanci

Okay, 4th and 5th graders can do this... how hard can it be?

How on Earth...?

It's just impossible!

If I turn it this way...

And then back
that way...

I can get 3
squares on
one side to
match...

But then I have to
move them to get
others to match up!

A woman with long grey hair, wearing a dark blue sweater and jeans, is sitting on a light-colored sofa. She is looking down at a Rubik's cube she is holding in her hands, with a frustrated expression on her face. The background shows a bookshelf filled with books and floral wallpaper. The text "Maybe you DO have to be a genius to solve these!" is overlaid on the bottom right of the image.

Maybe you DO
have to be a
genius to solve
these!

Obviously, I am
no genius!

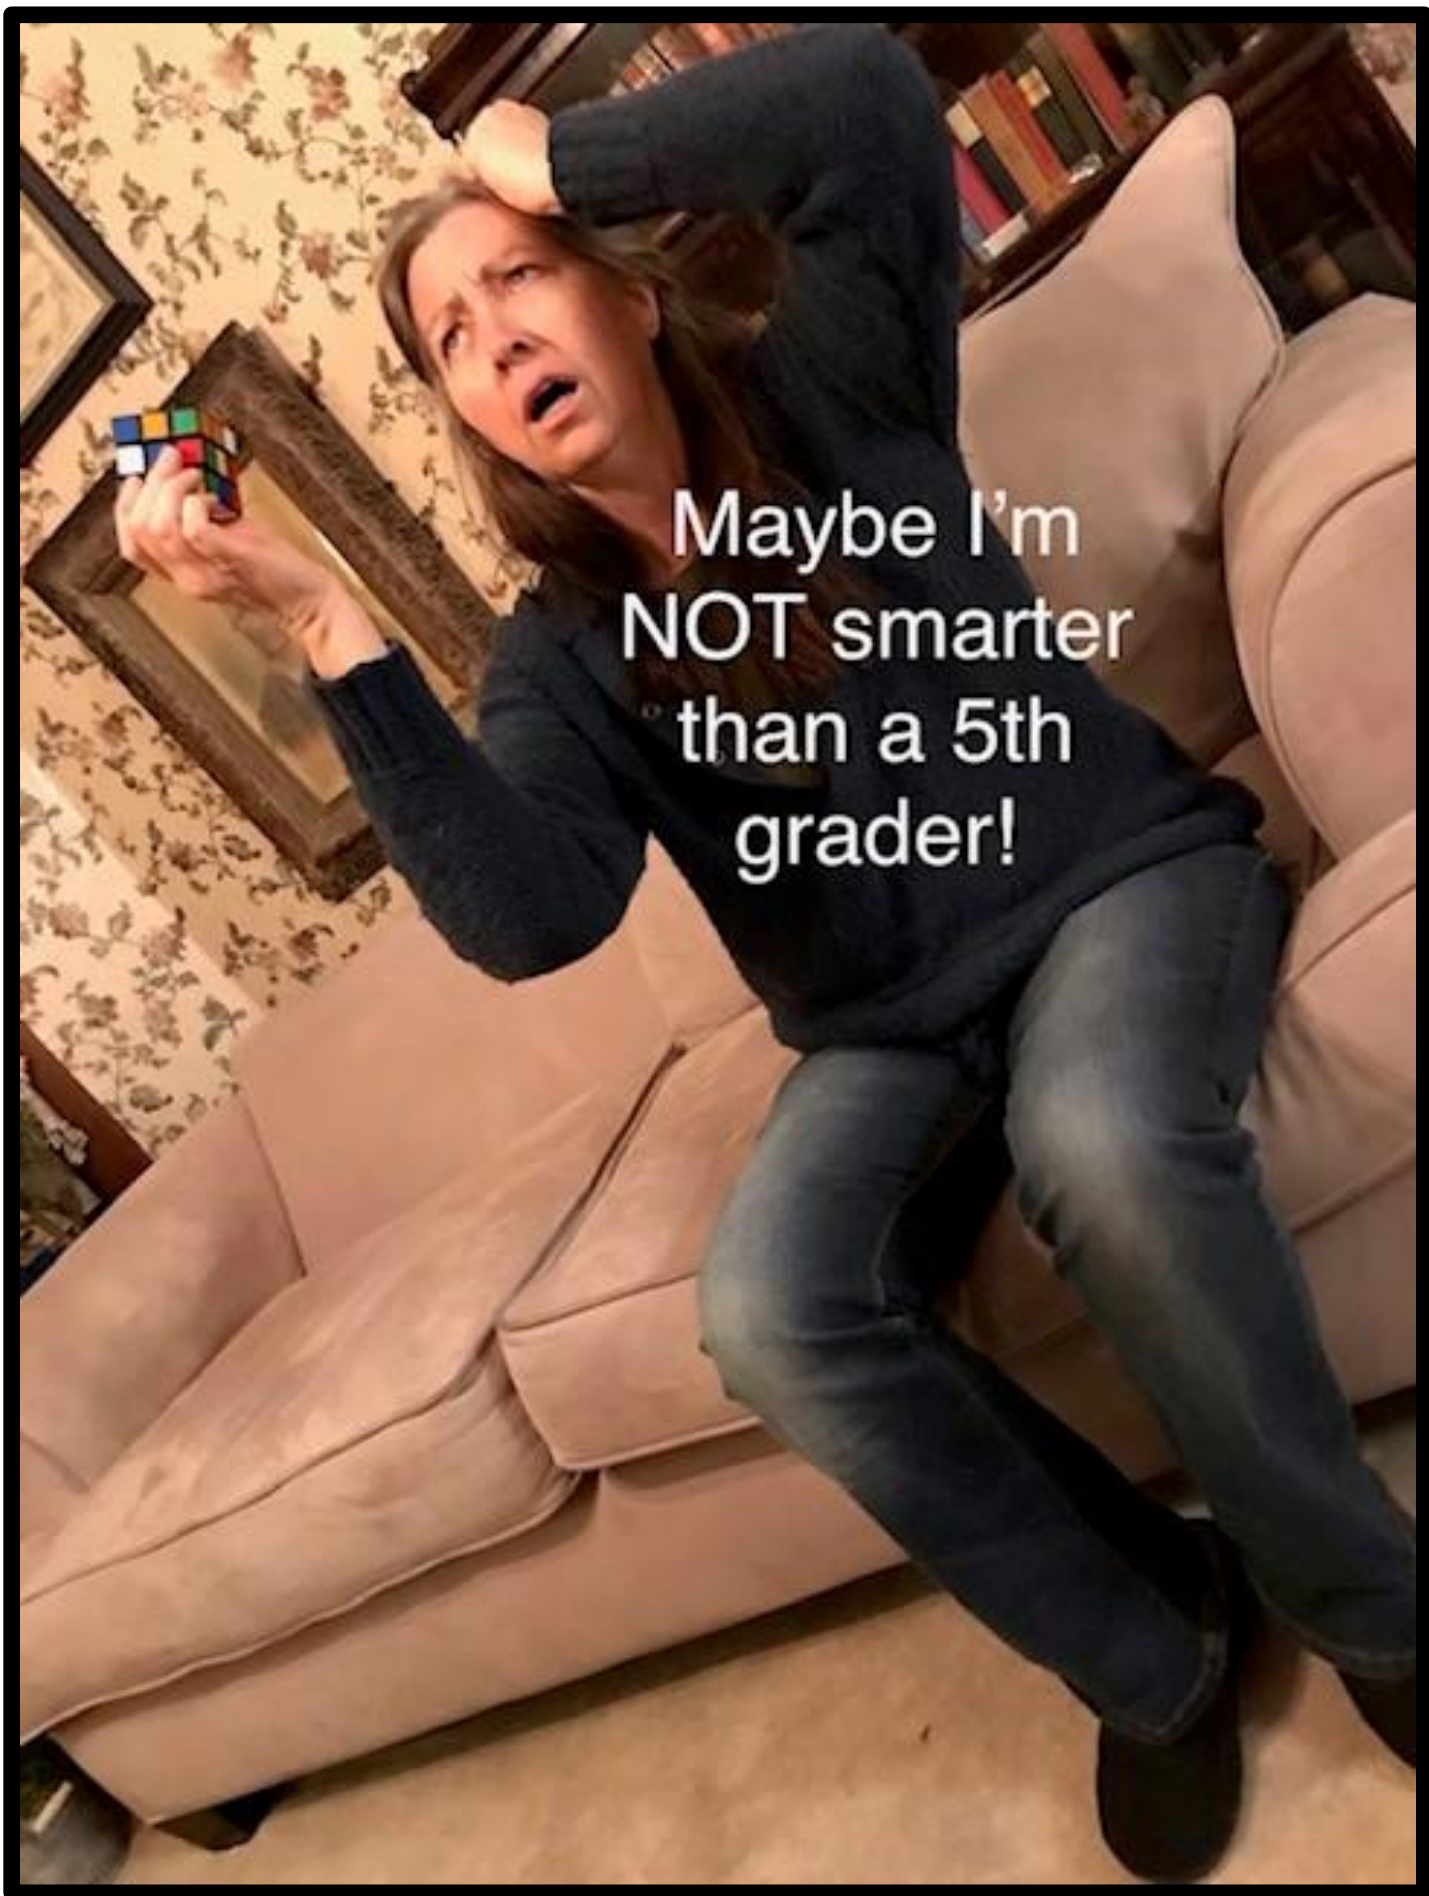

This is your fault,
you know!

Can you put it back the way it was?

Maybe I'm
NOT smarter
than a 5th
grader!

I feel...

SO . . .

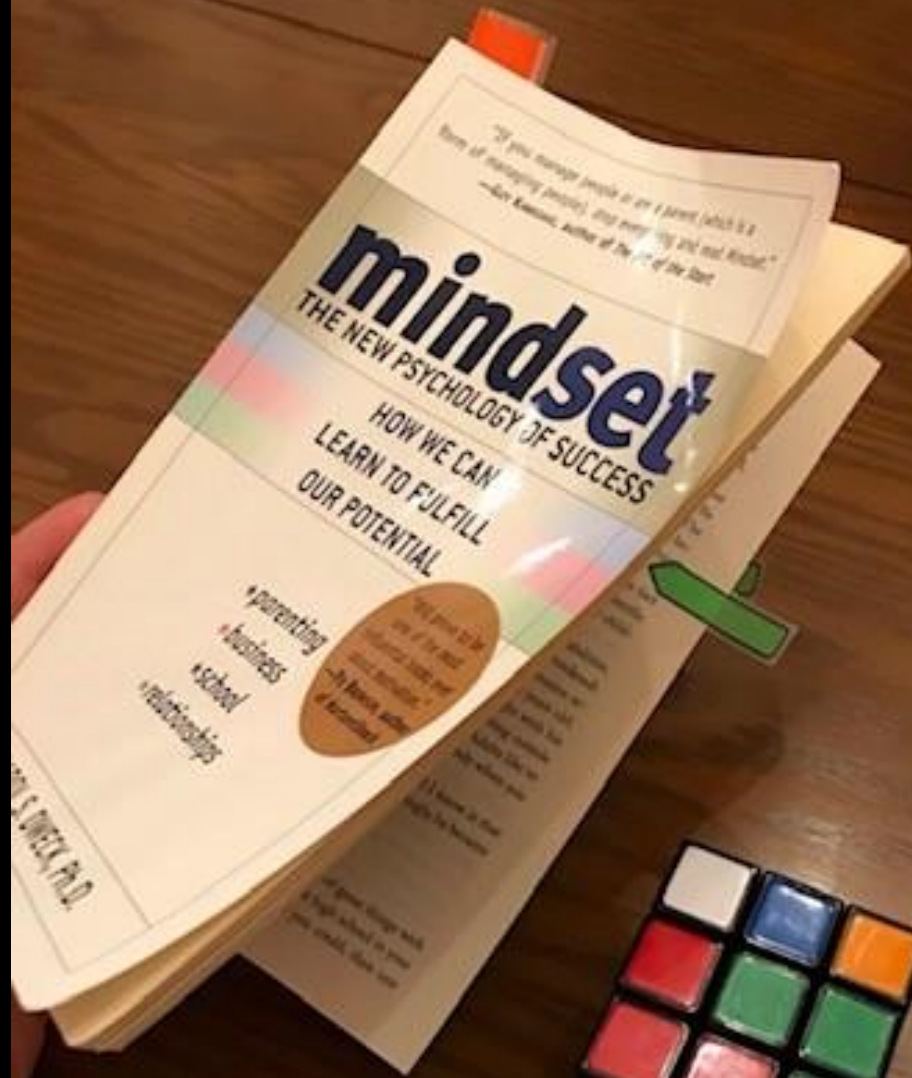

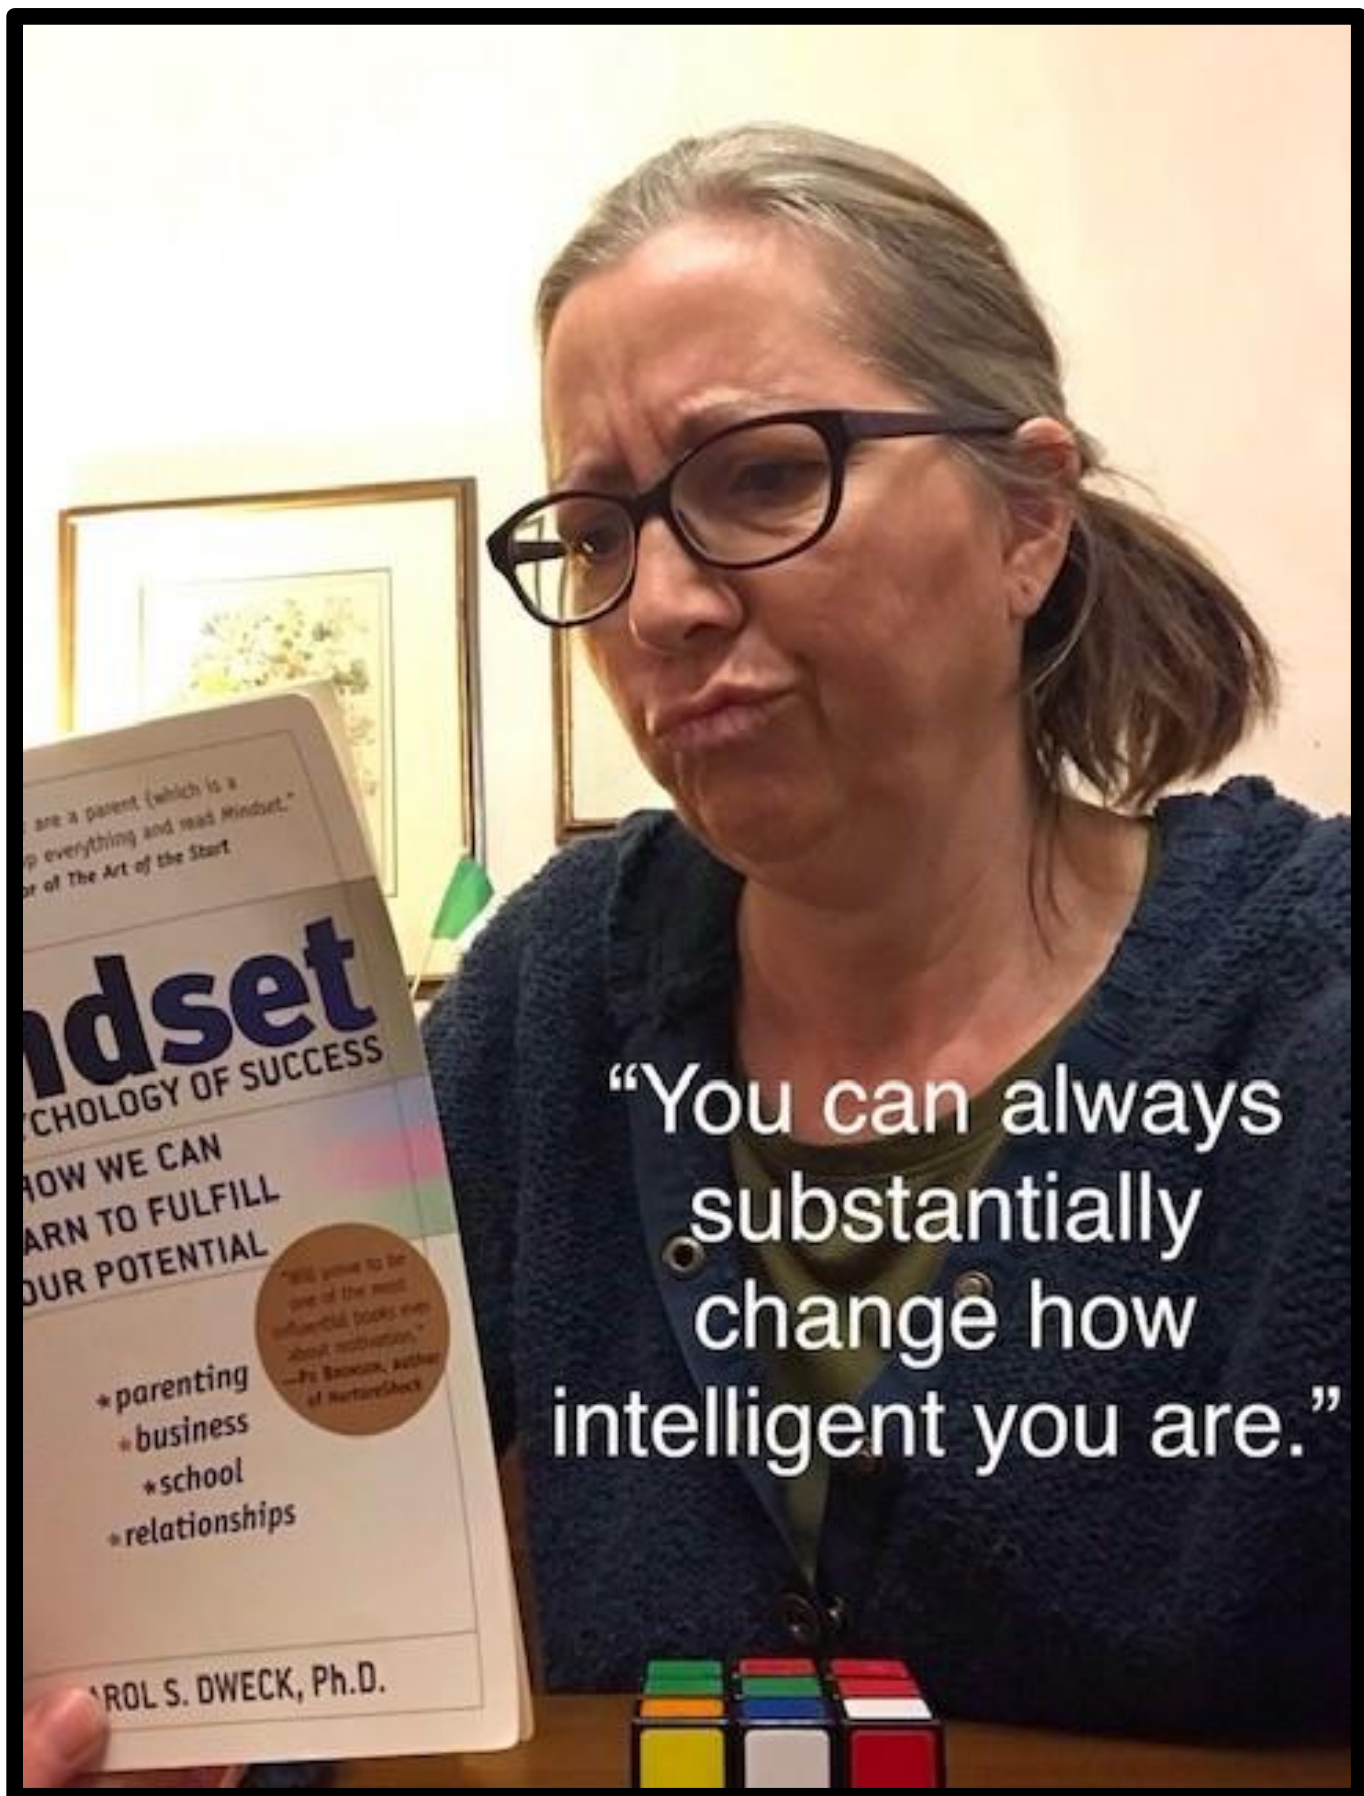

Stupid!

I am a failure!

I need a little encouragement....

Okay, Mr. Rubik,
you may have
made a hard
puzzle...

LOT of

... but with a ~~little~~ hard work, I will figure this out.

And maybe I'll
grow a little
smarter in the
process!

But I'm going to
need to get some
help...
