

THE RUBIK'S

CUBE

PART 4

By Ms. Nanci

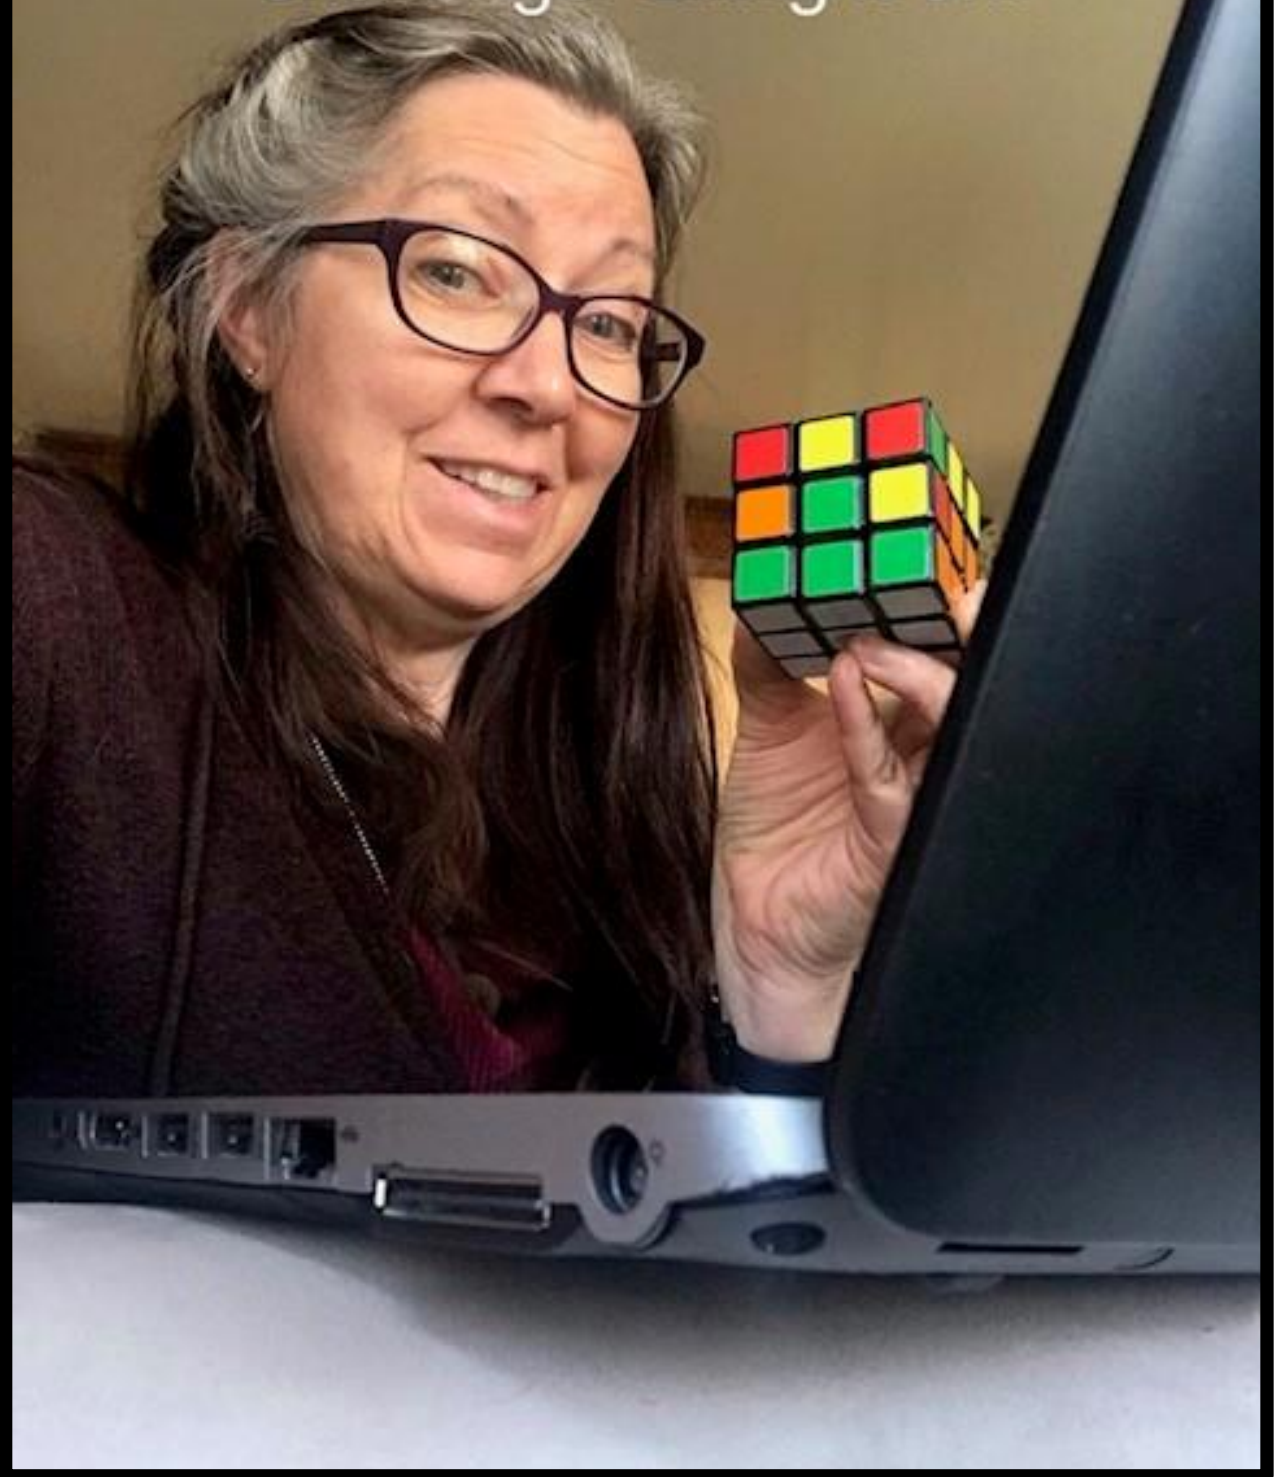

Today, I will
conquer the
Cube!

This will stretch
my brain.

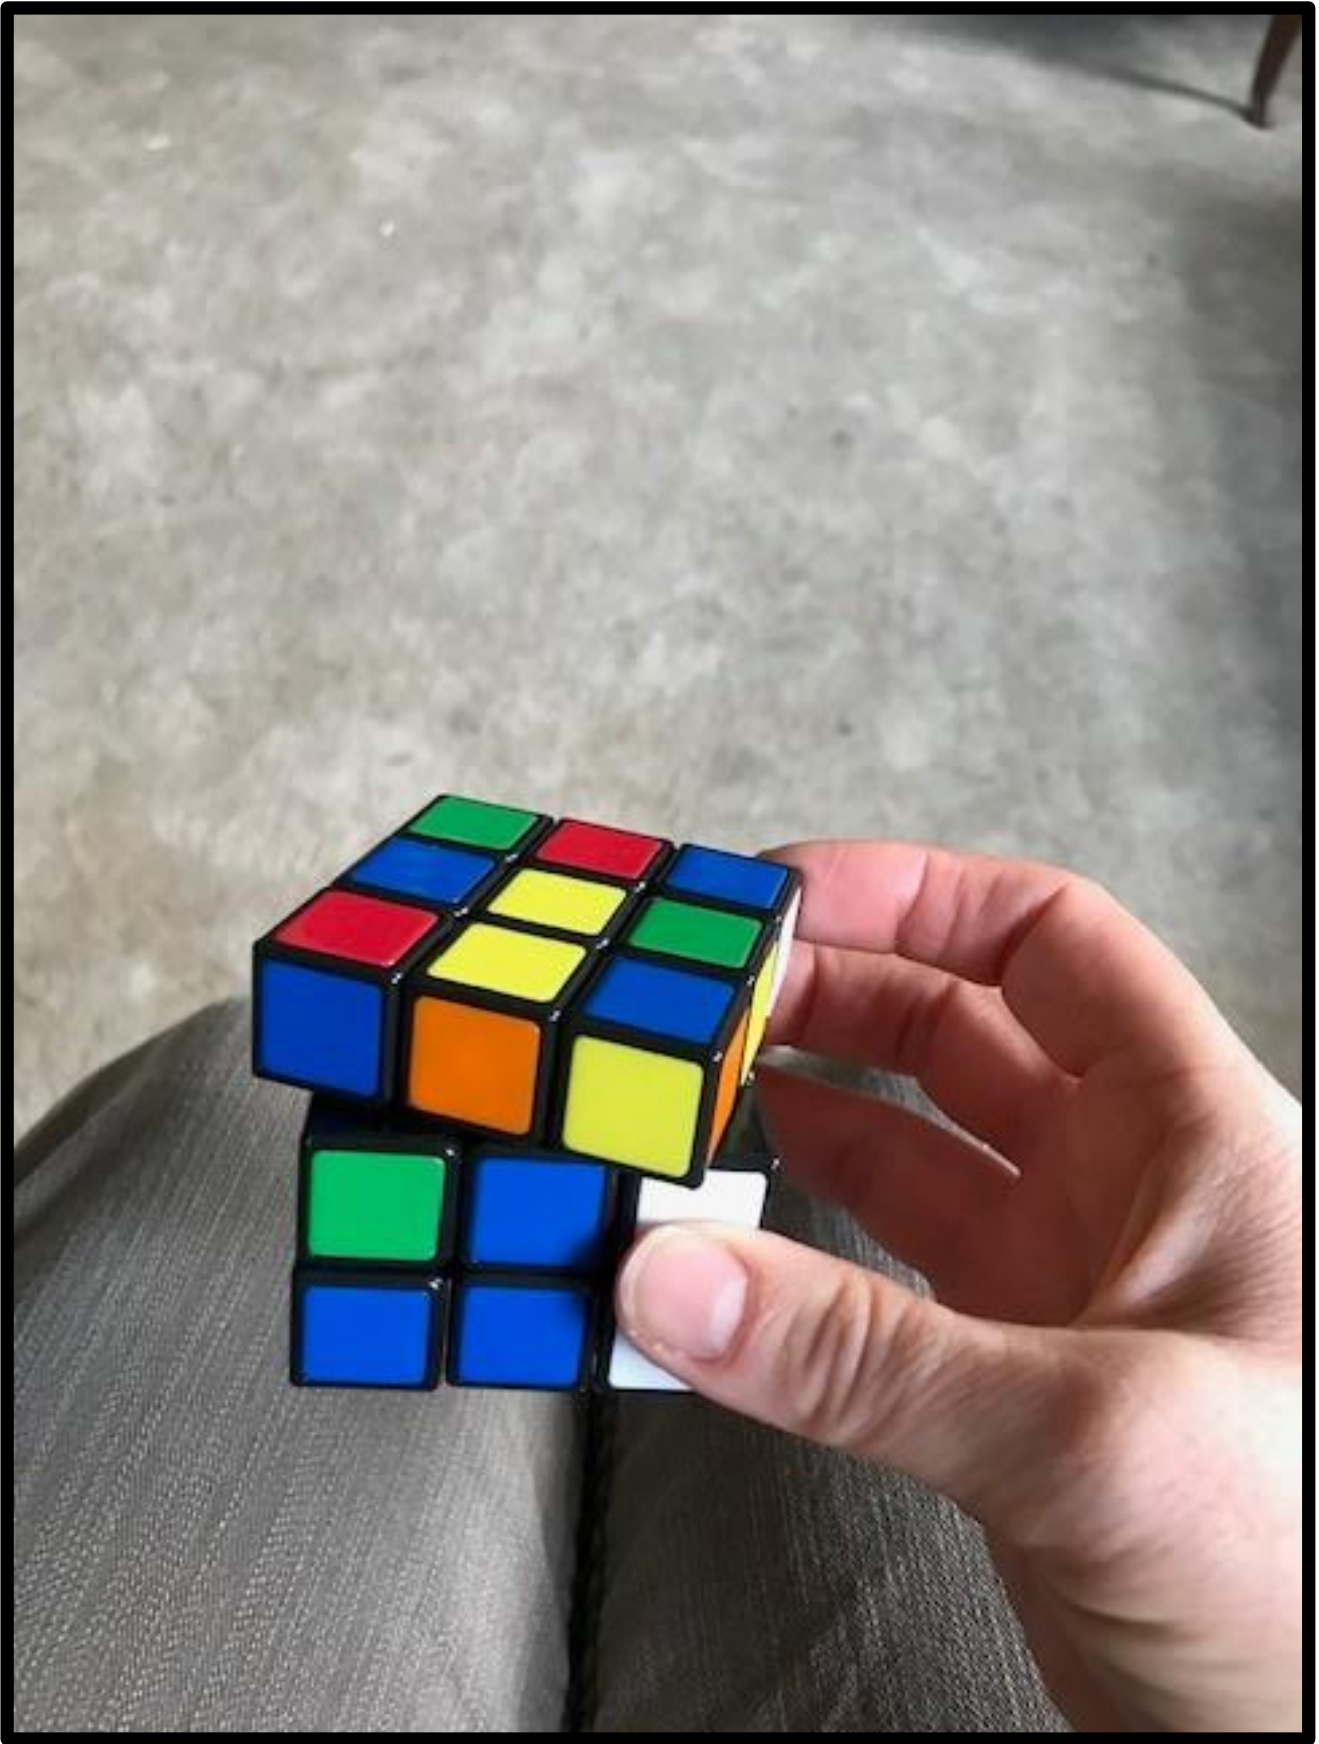

Growth mindset = Embrace the challenge. Bring it on!

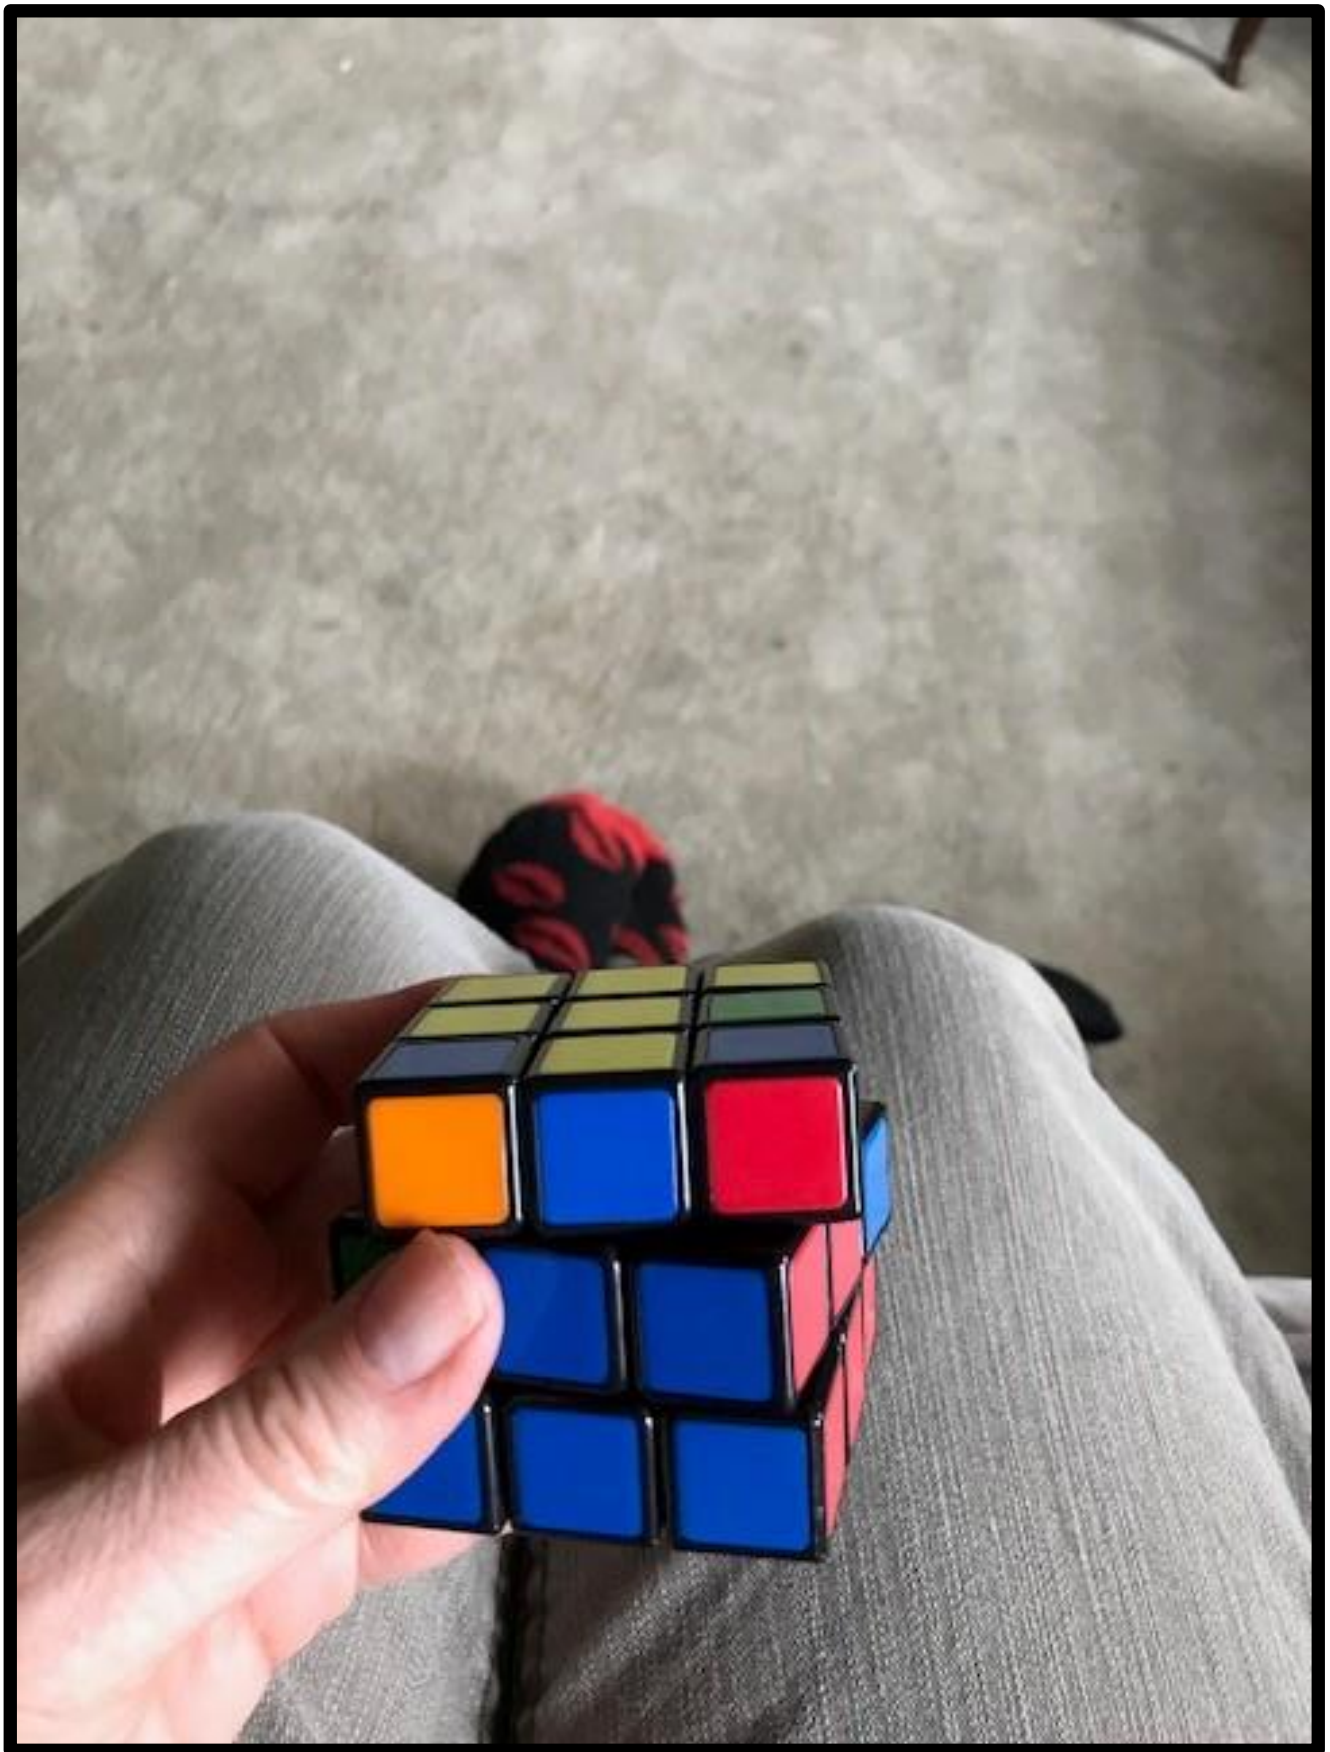

Oh, no! I displaced
a white corner!

One corner left!

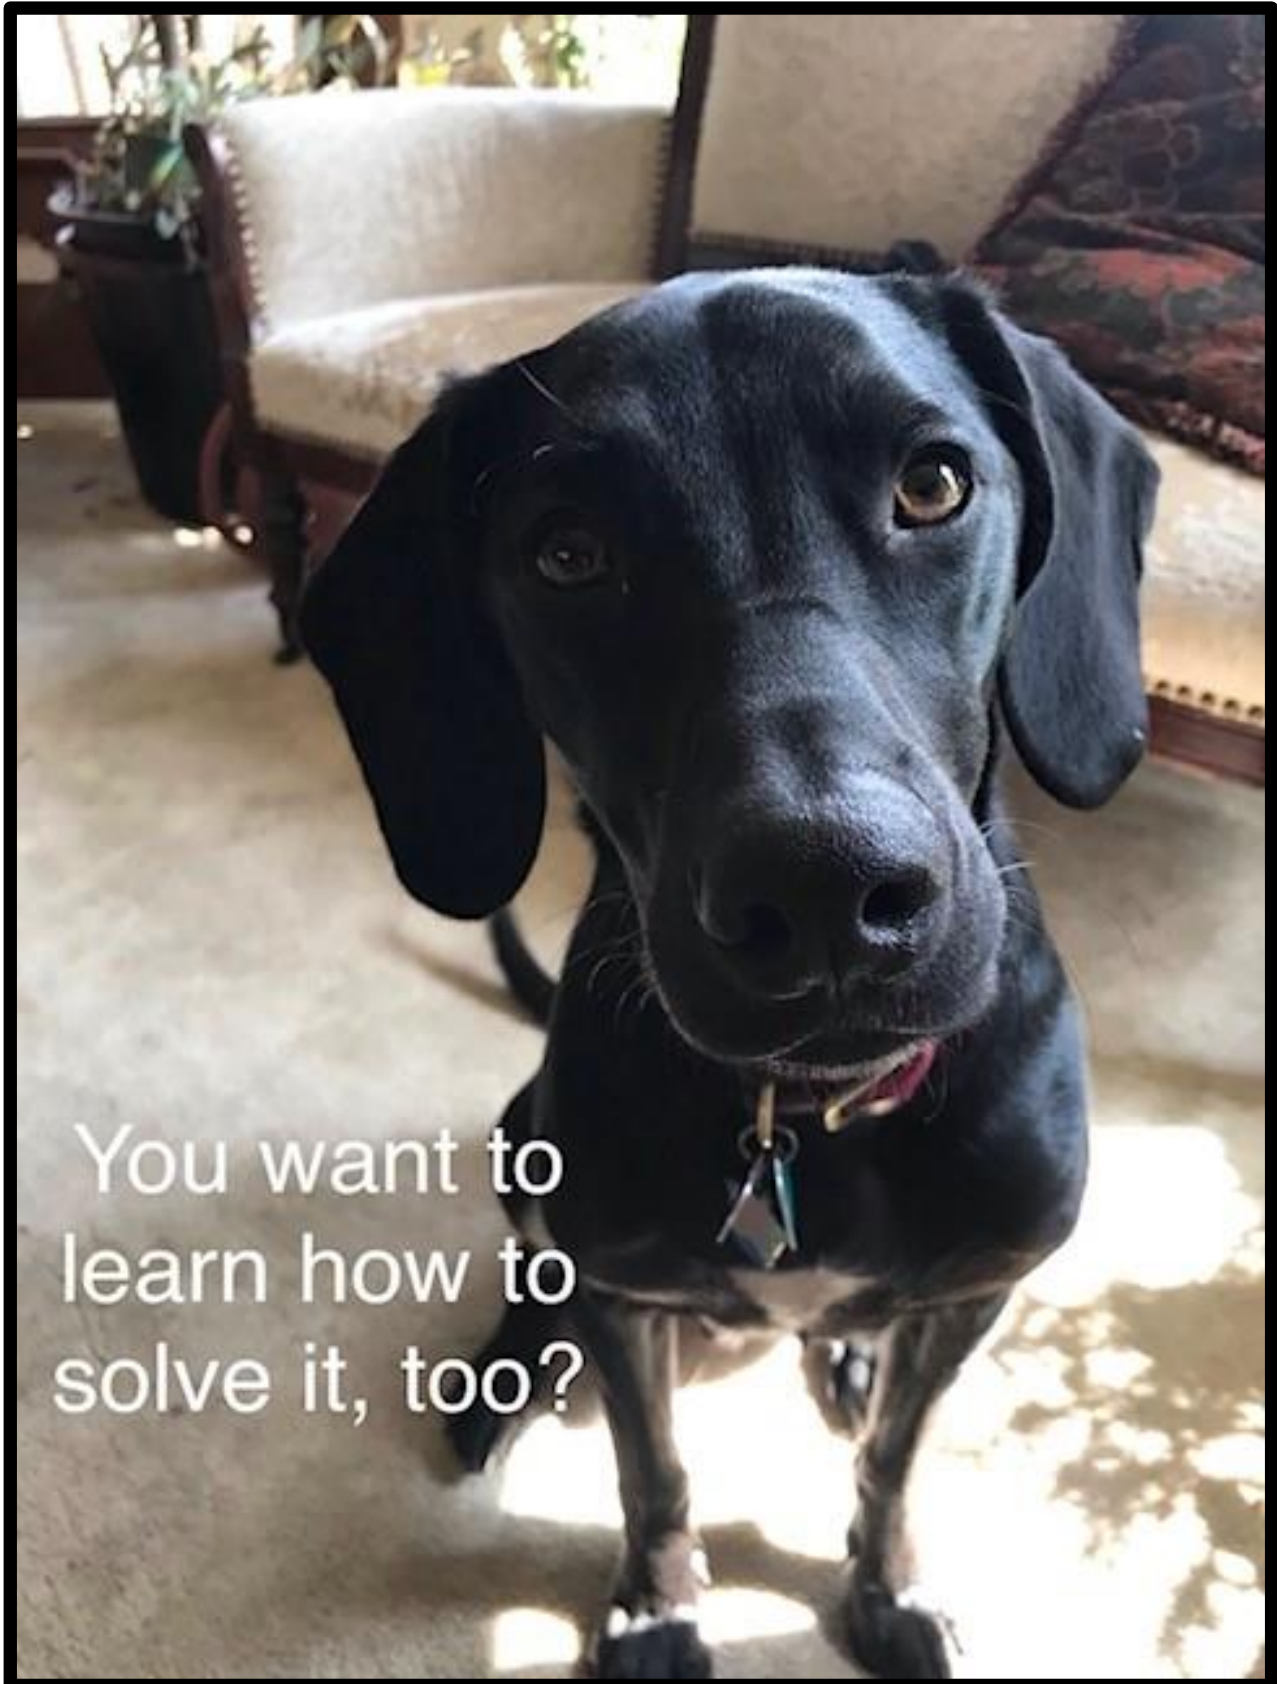

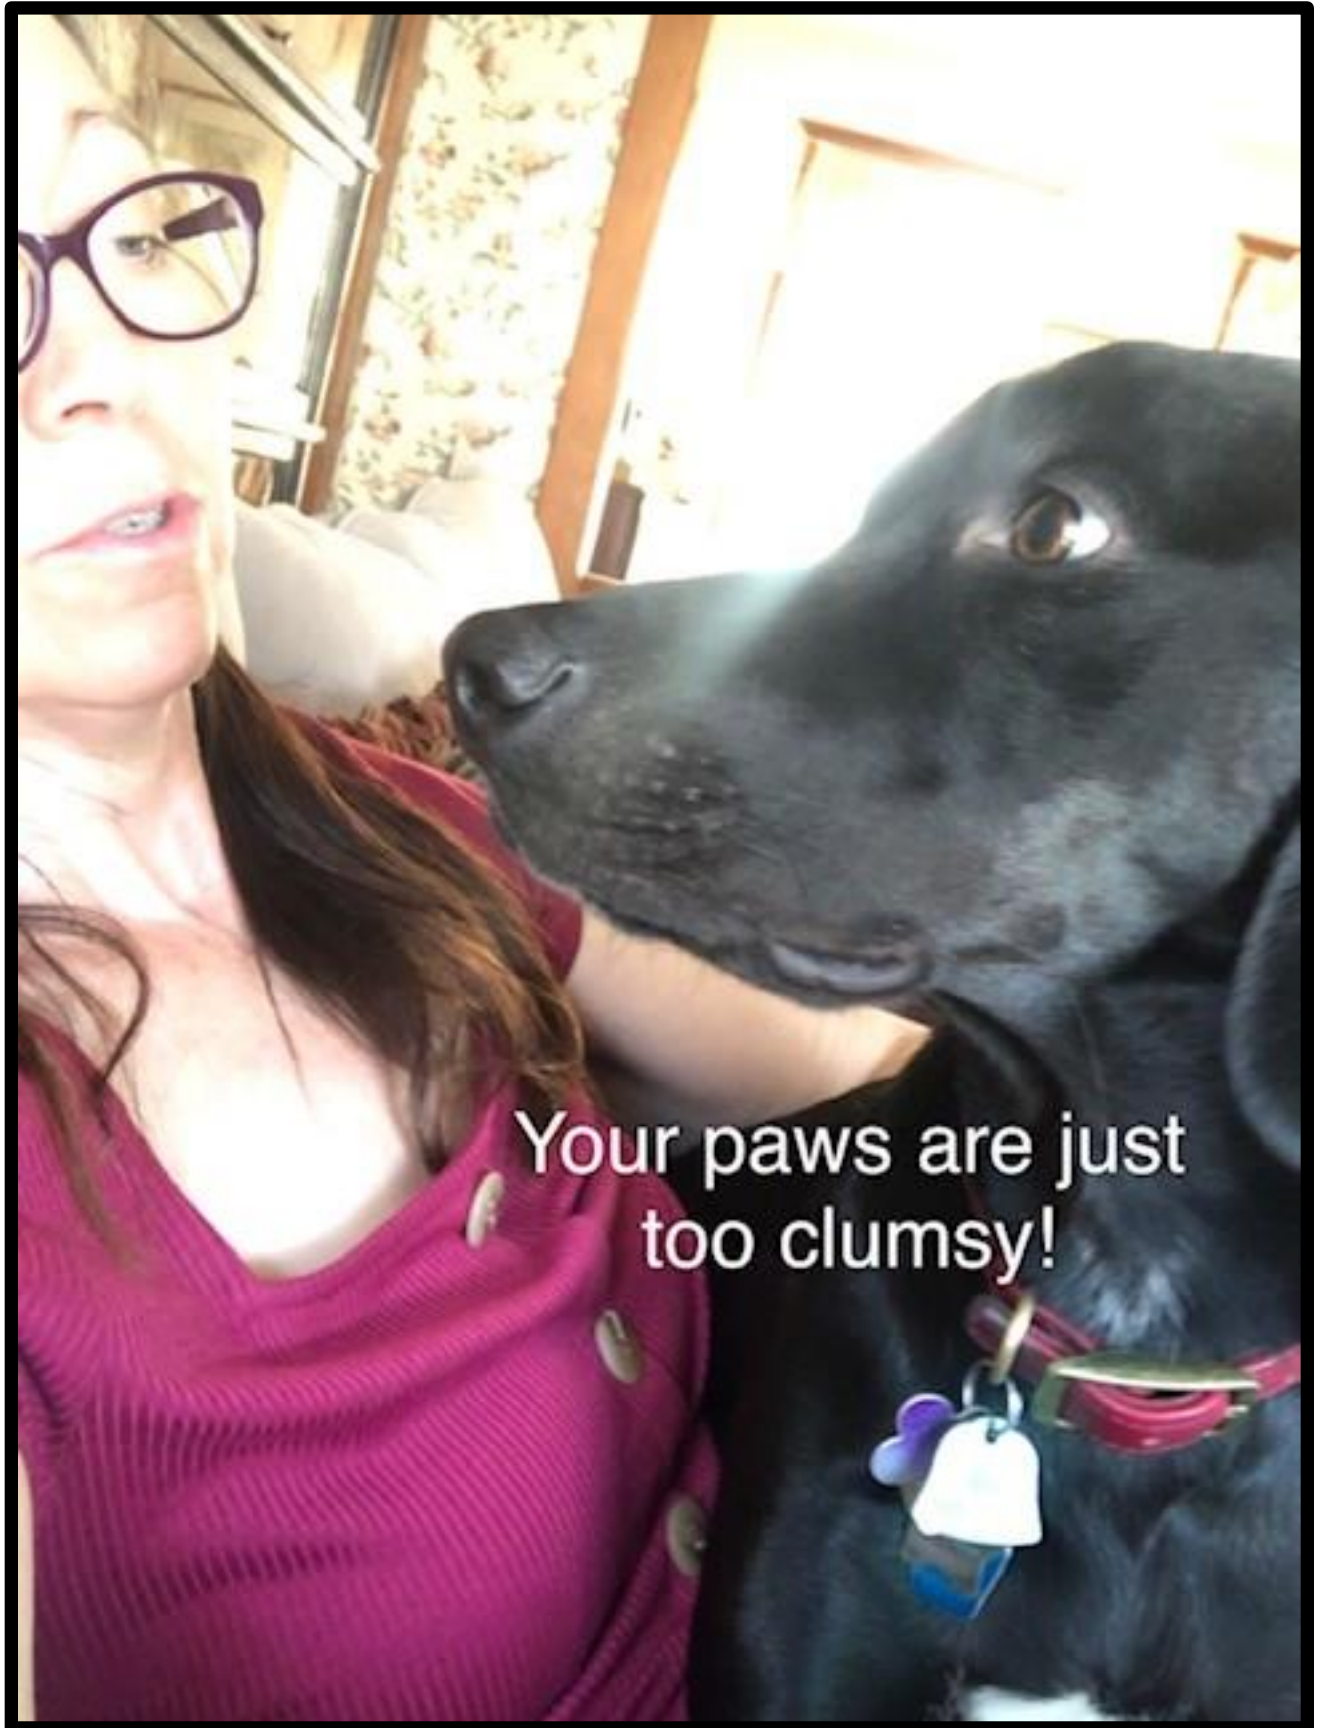

Second layer done!
That was easier
than I thought!

You want to
learn how to
solve it, too?

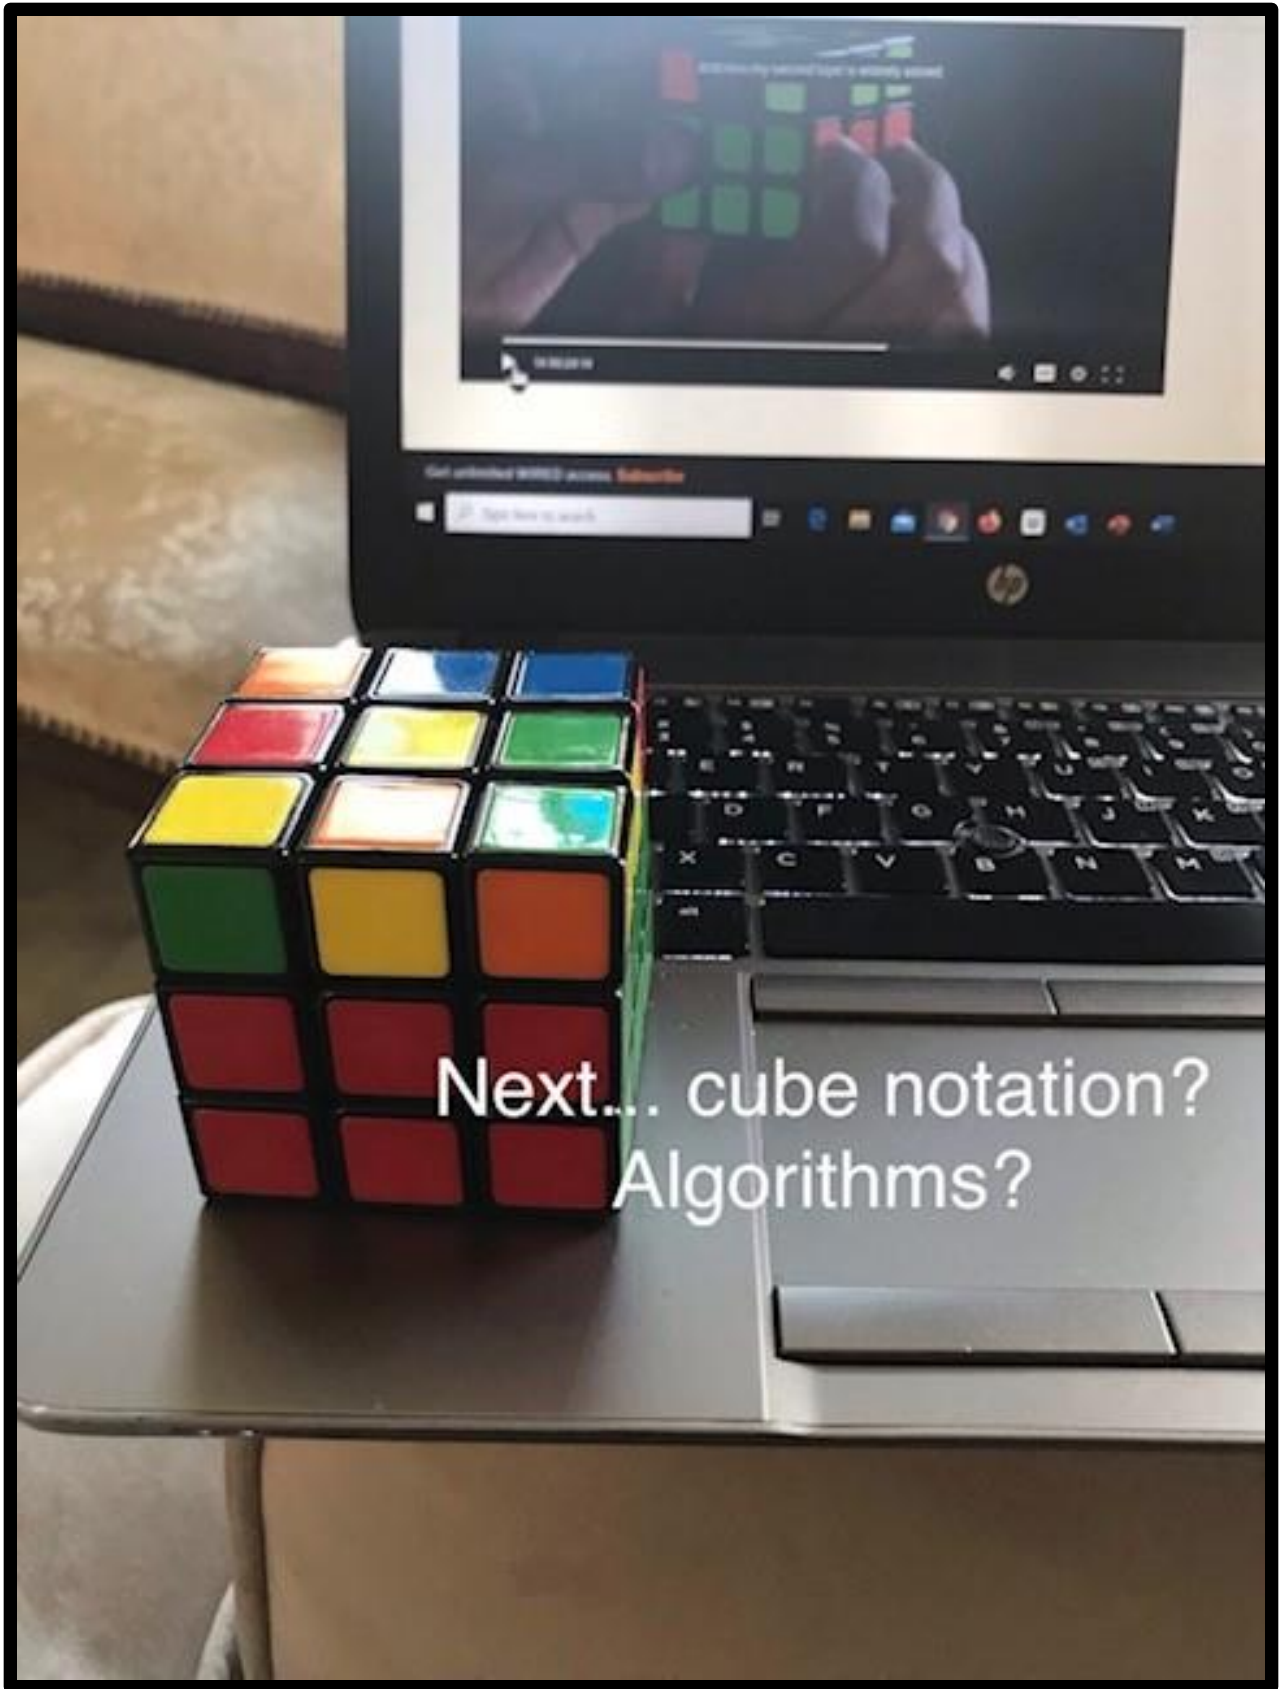

Your paws are just
too clumsy!

Once I solve this, Apollo,
I'm keeping this cube far
away from you!

Apollo wishes
he had thumbs.

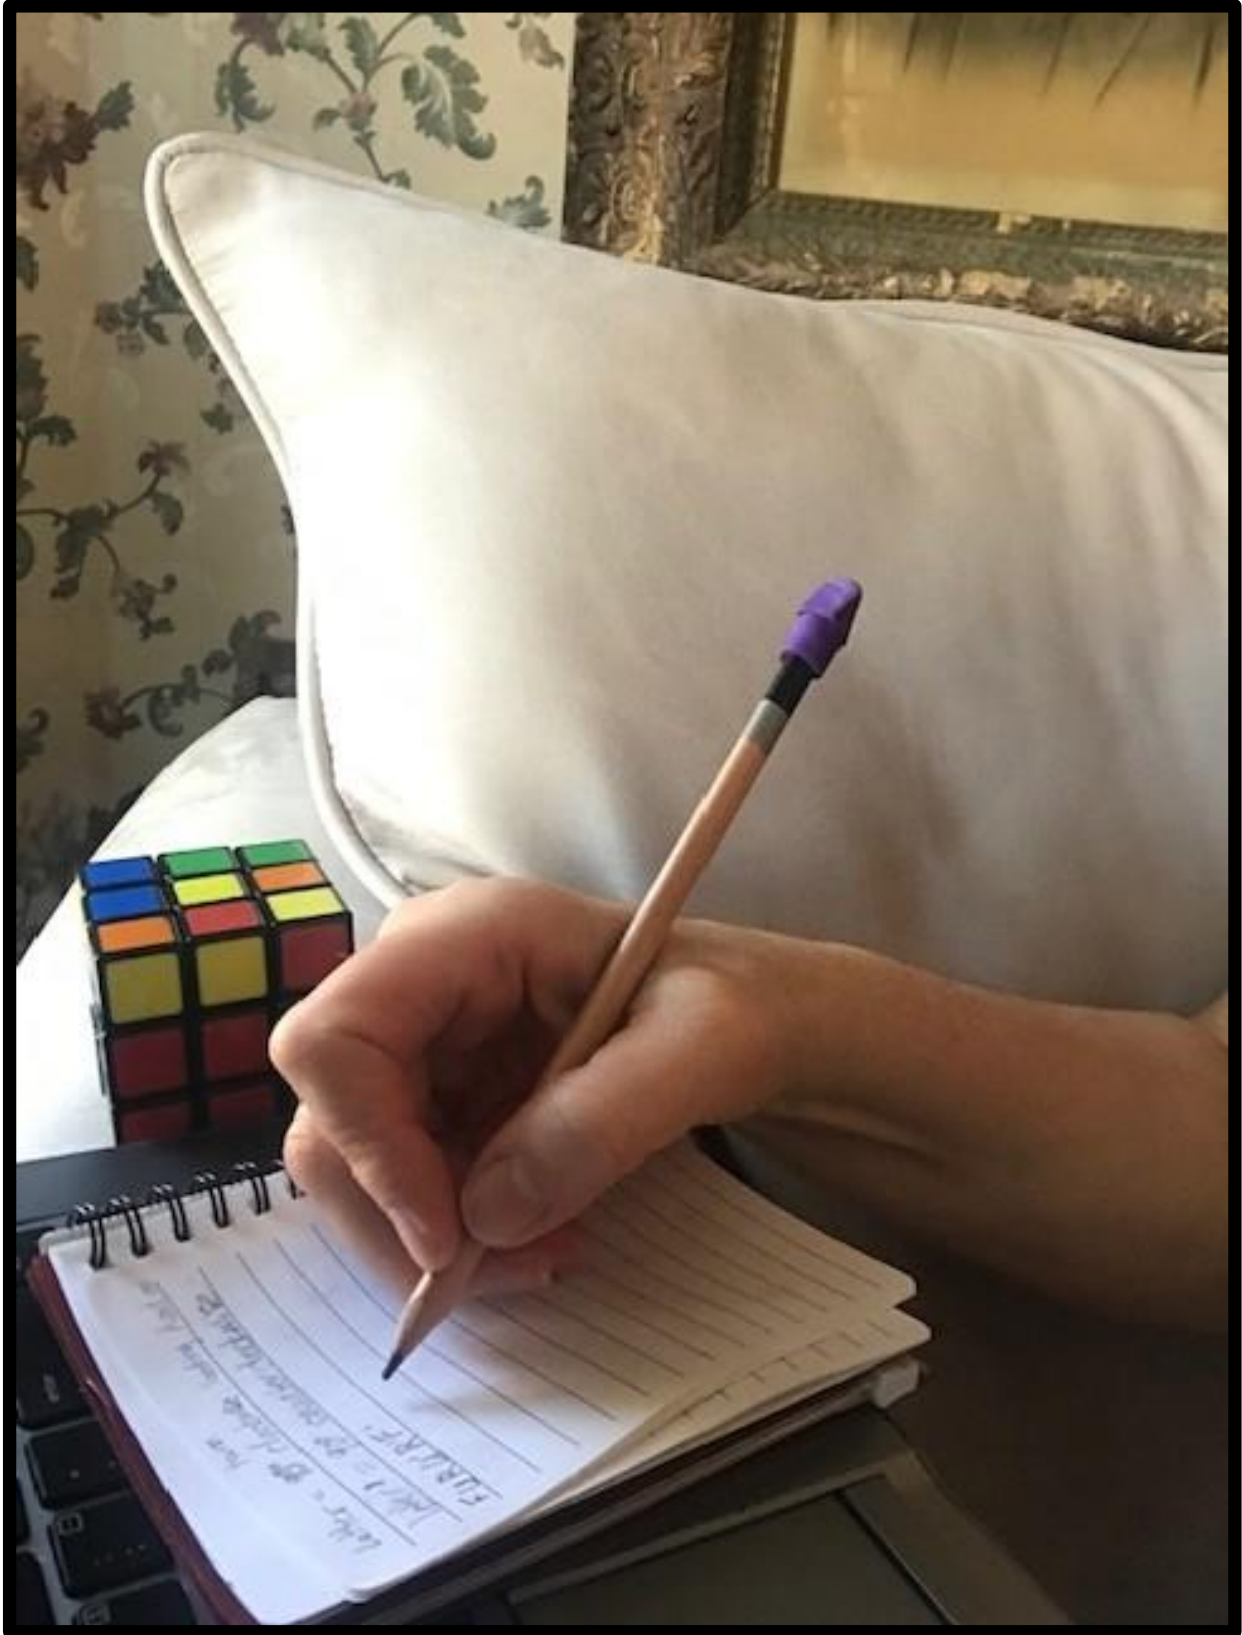

Next... cube notation?
Algorithms?

Not gonna lie: this
will be hard!

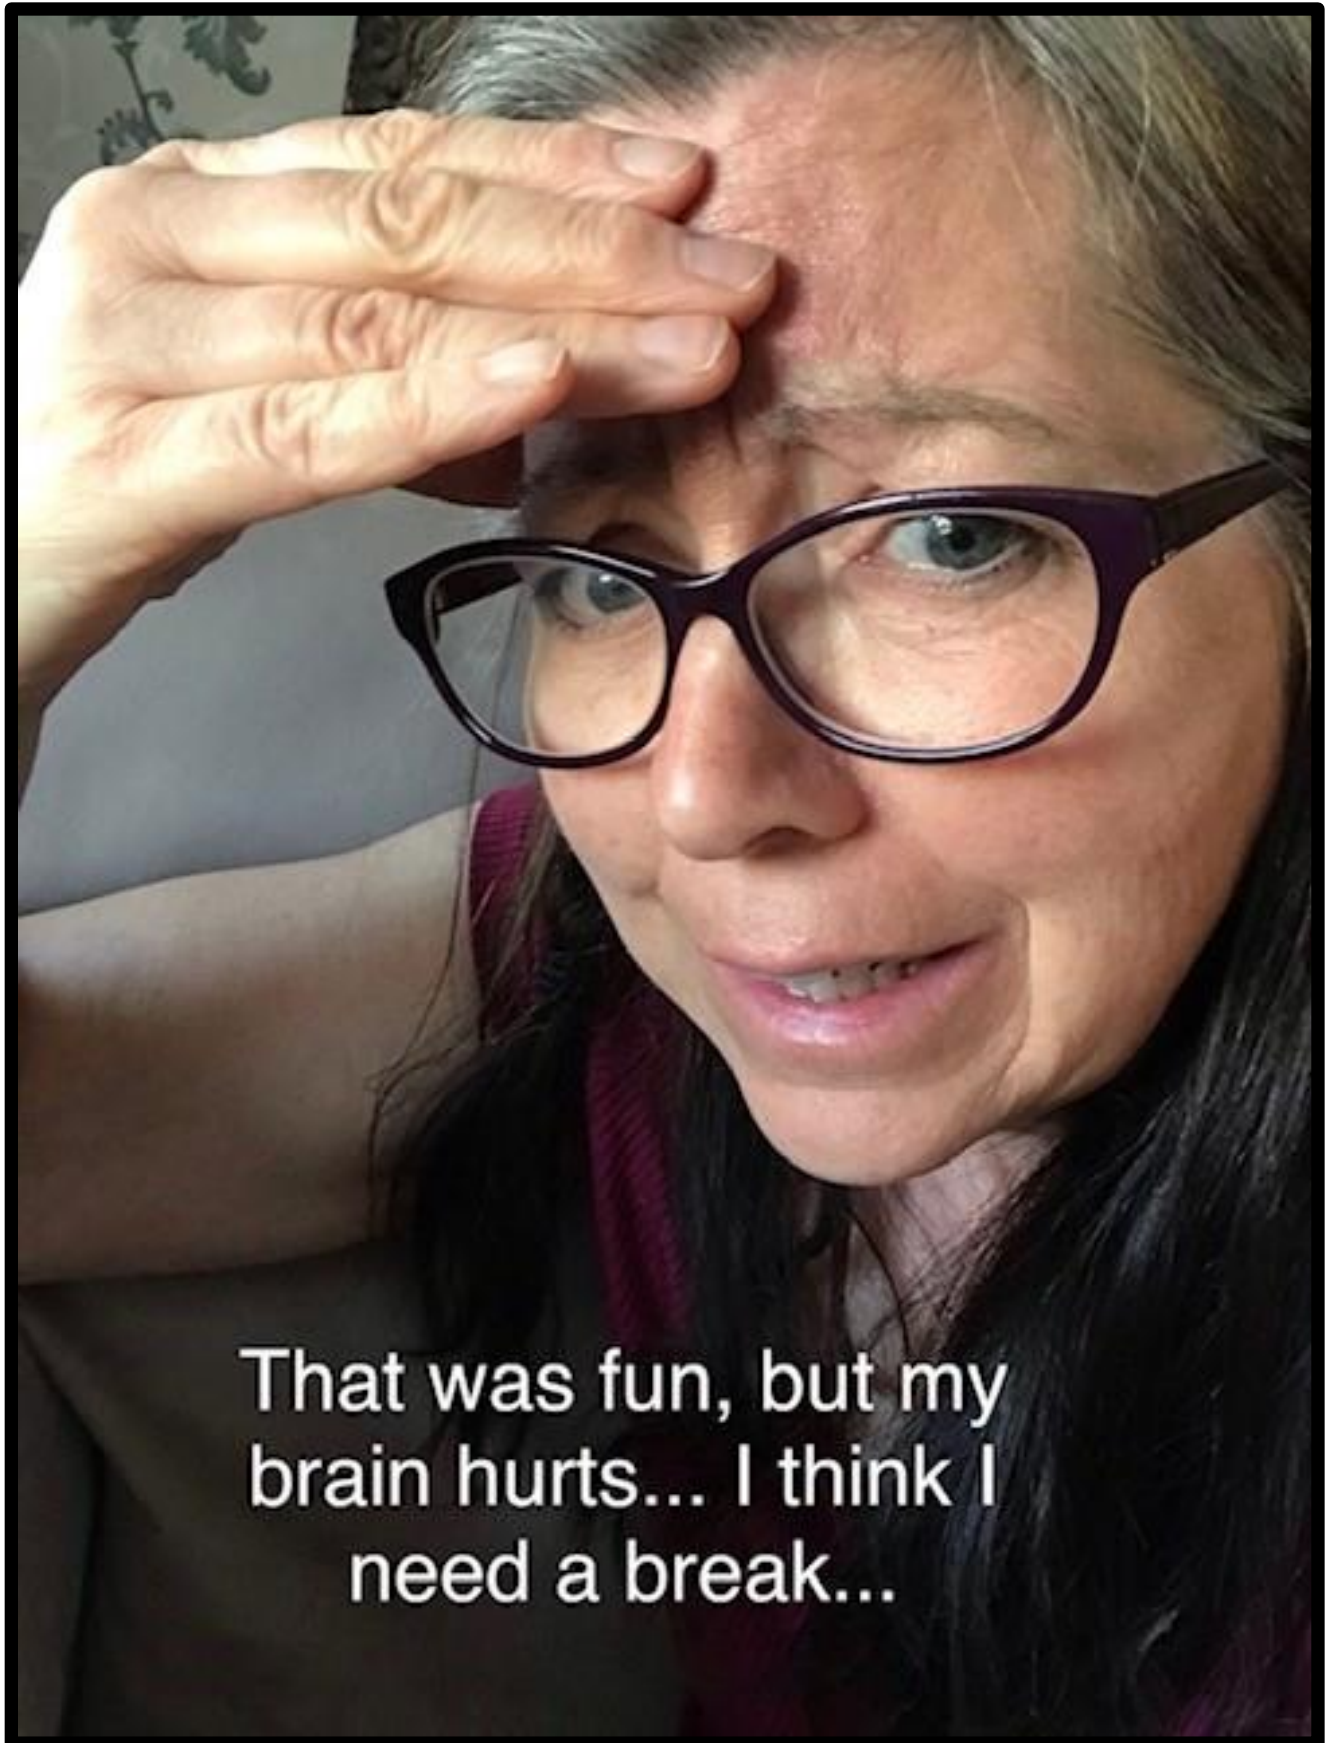

Hey! Matchy matchy!

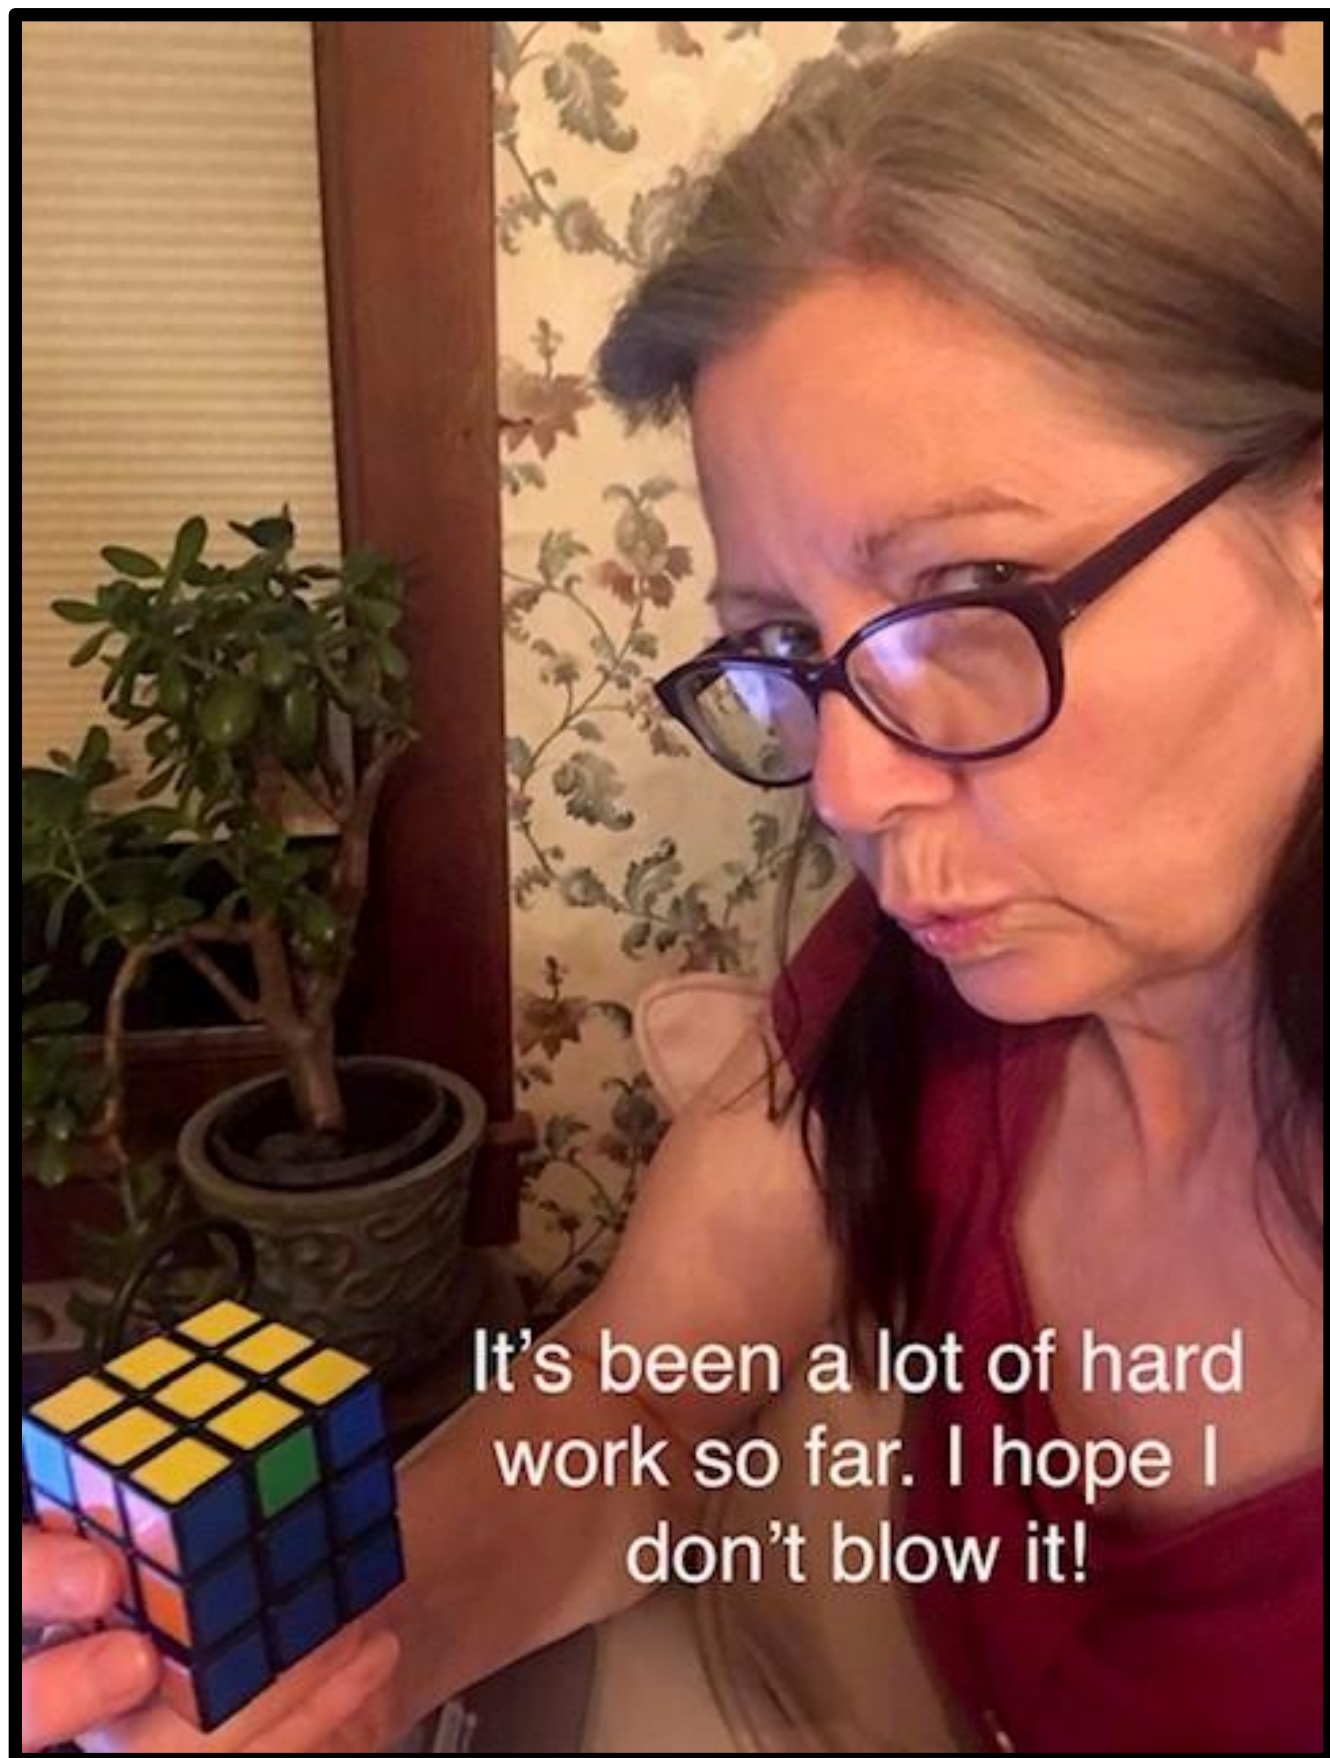

That was fun, but my
brain hurts... I think I
need a break...

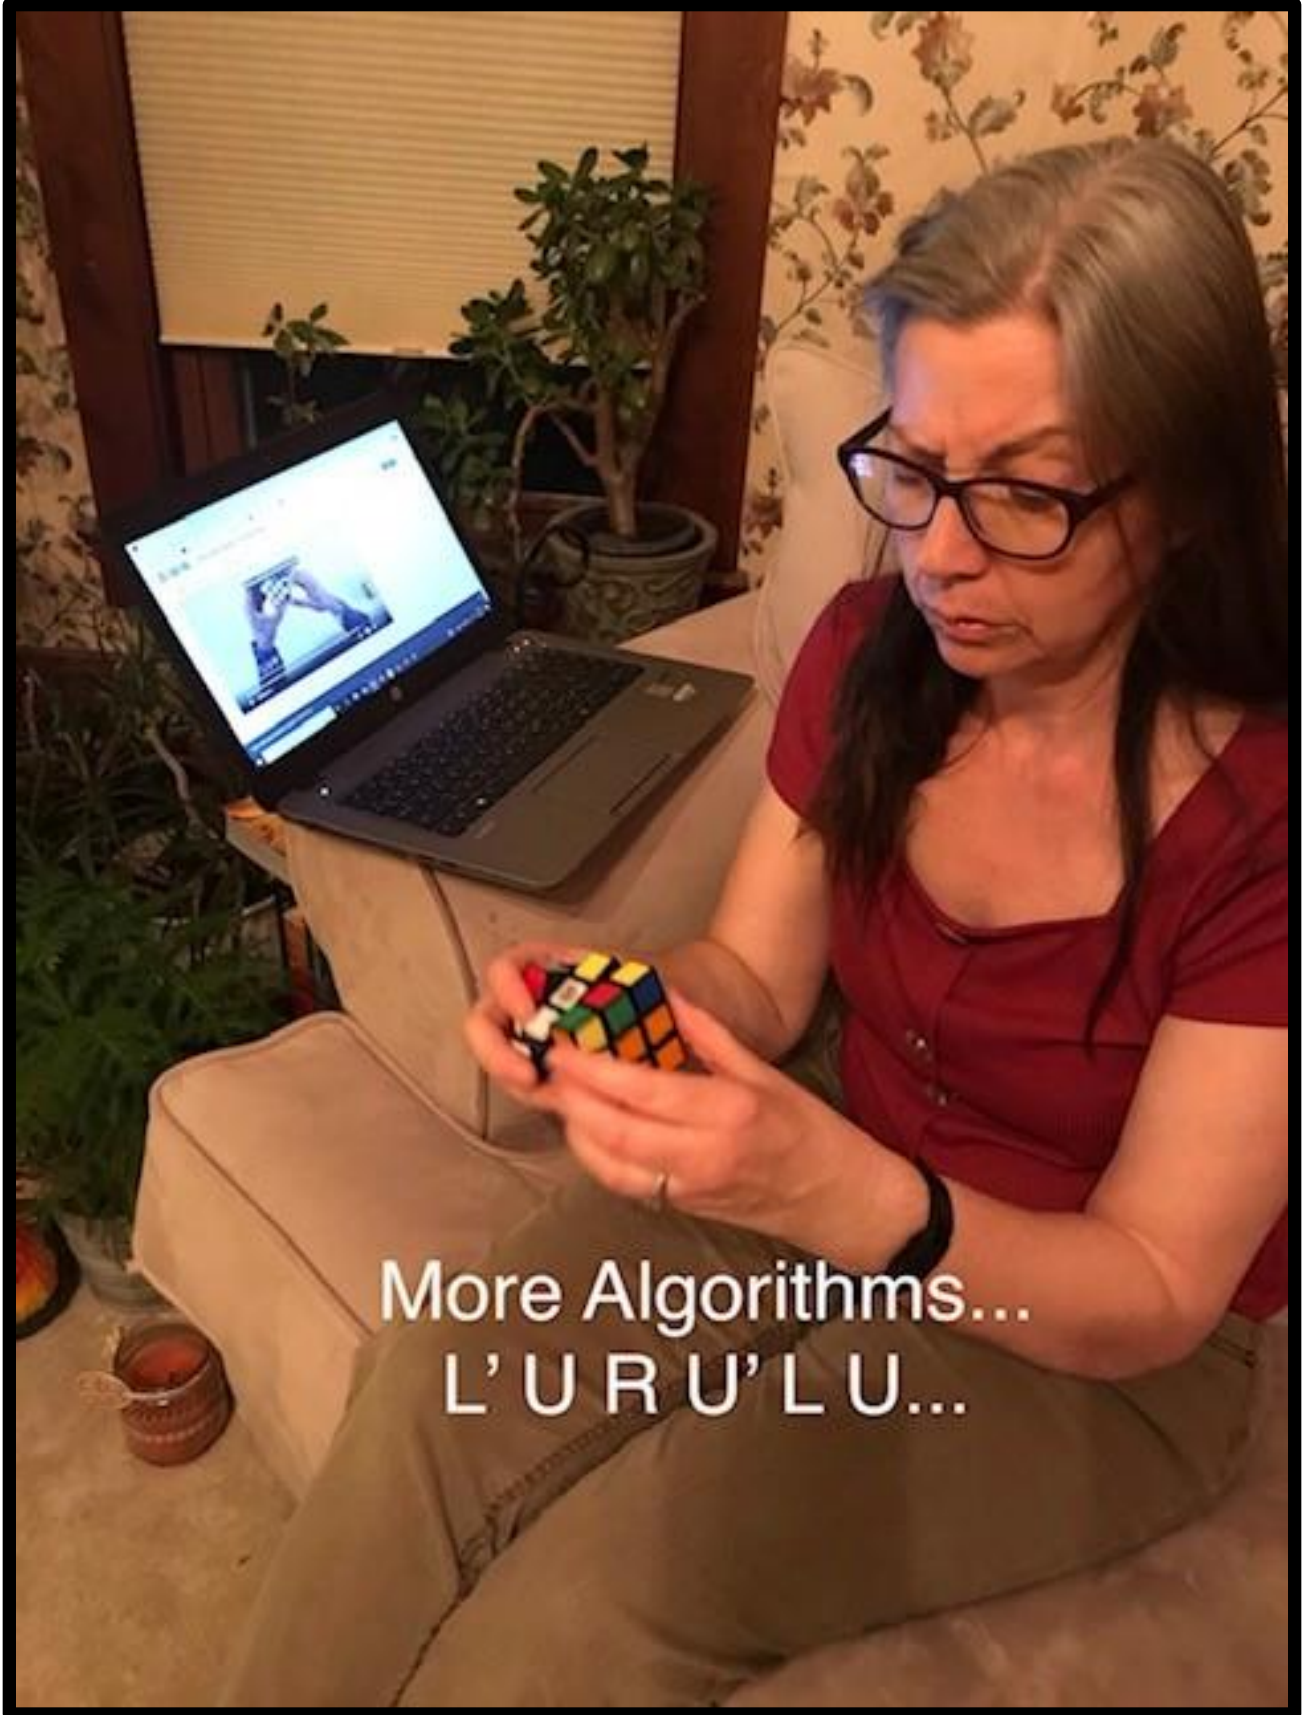

After a nice dinner with my
family . . .

I'm ready to
resume.

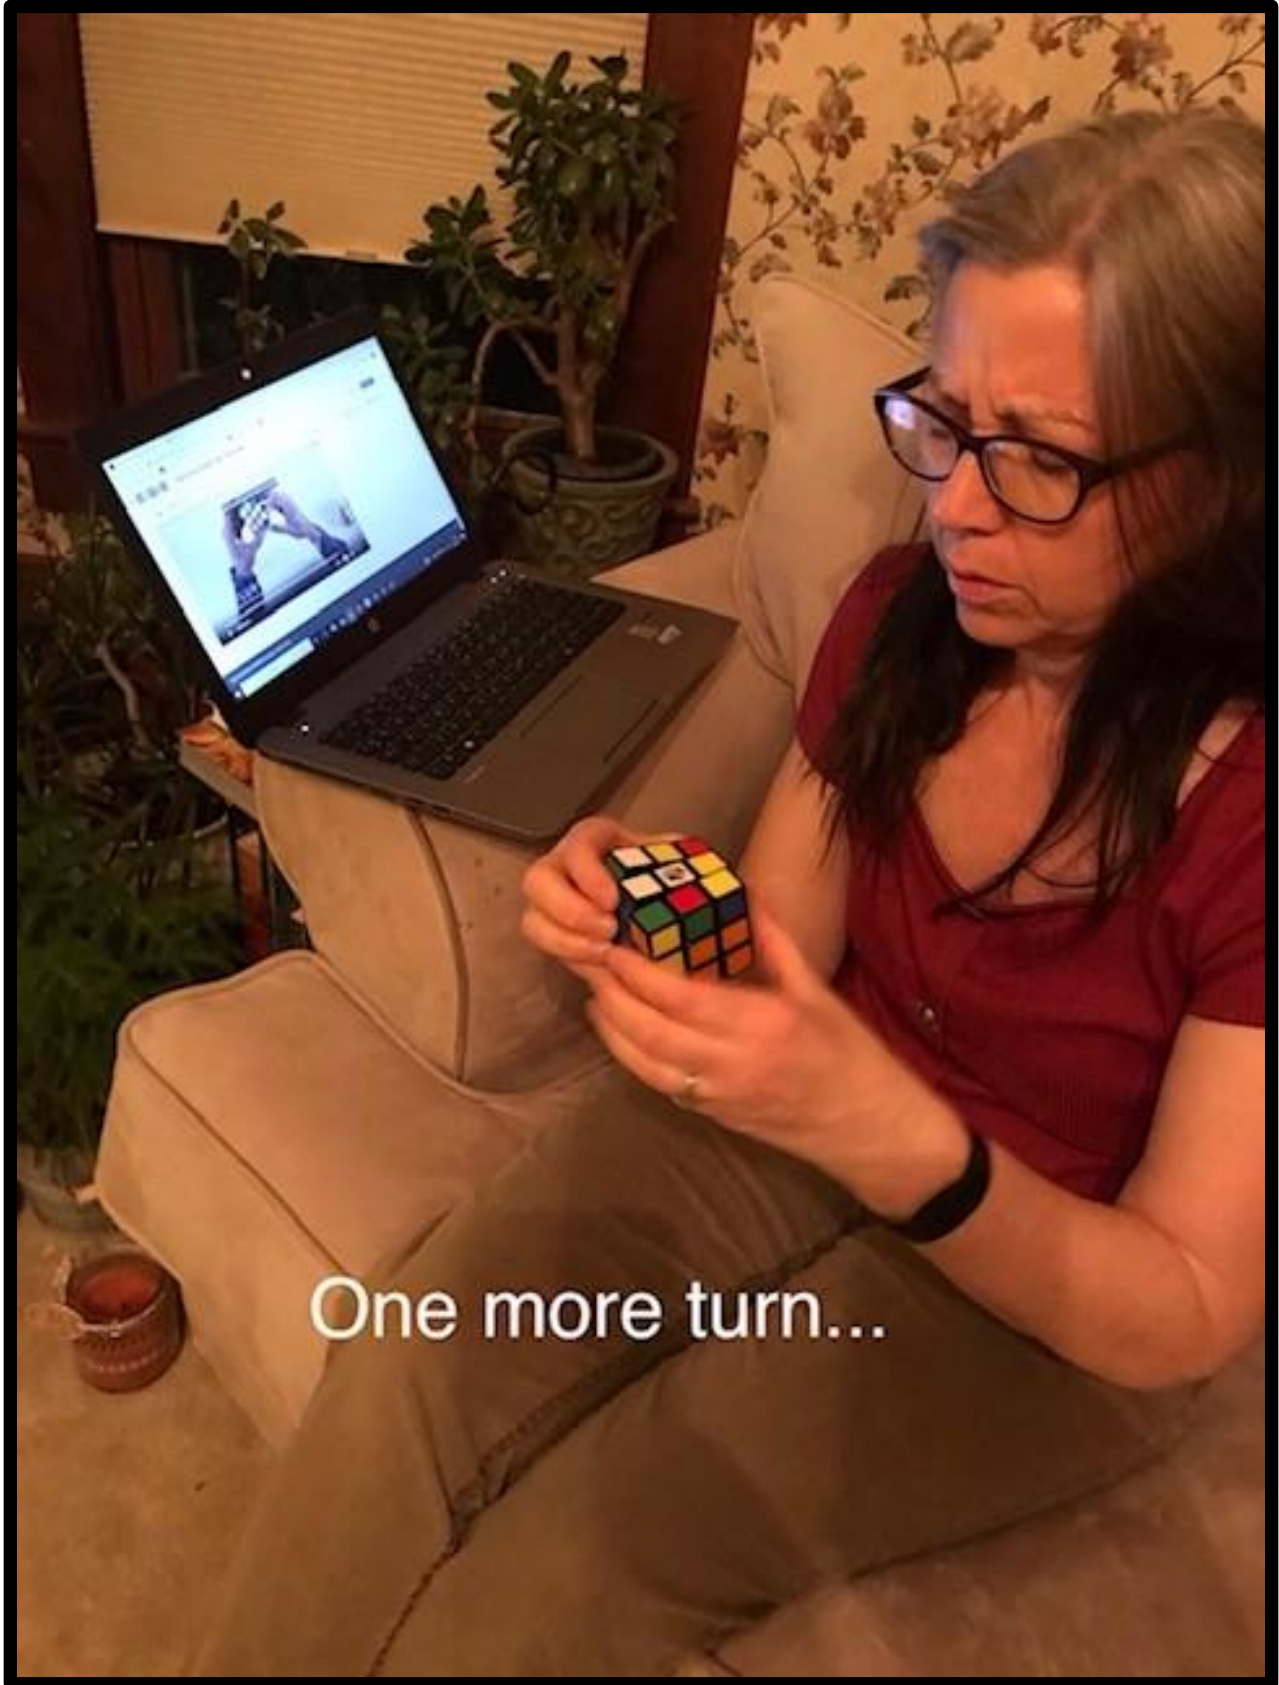

It's been a lot of hard
work so far. I hope I
don't blow it!

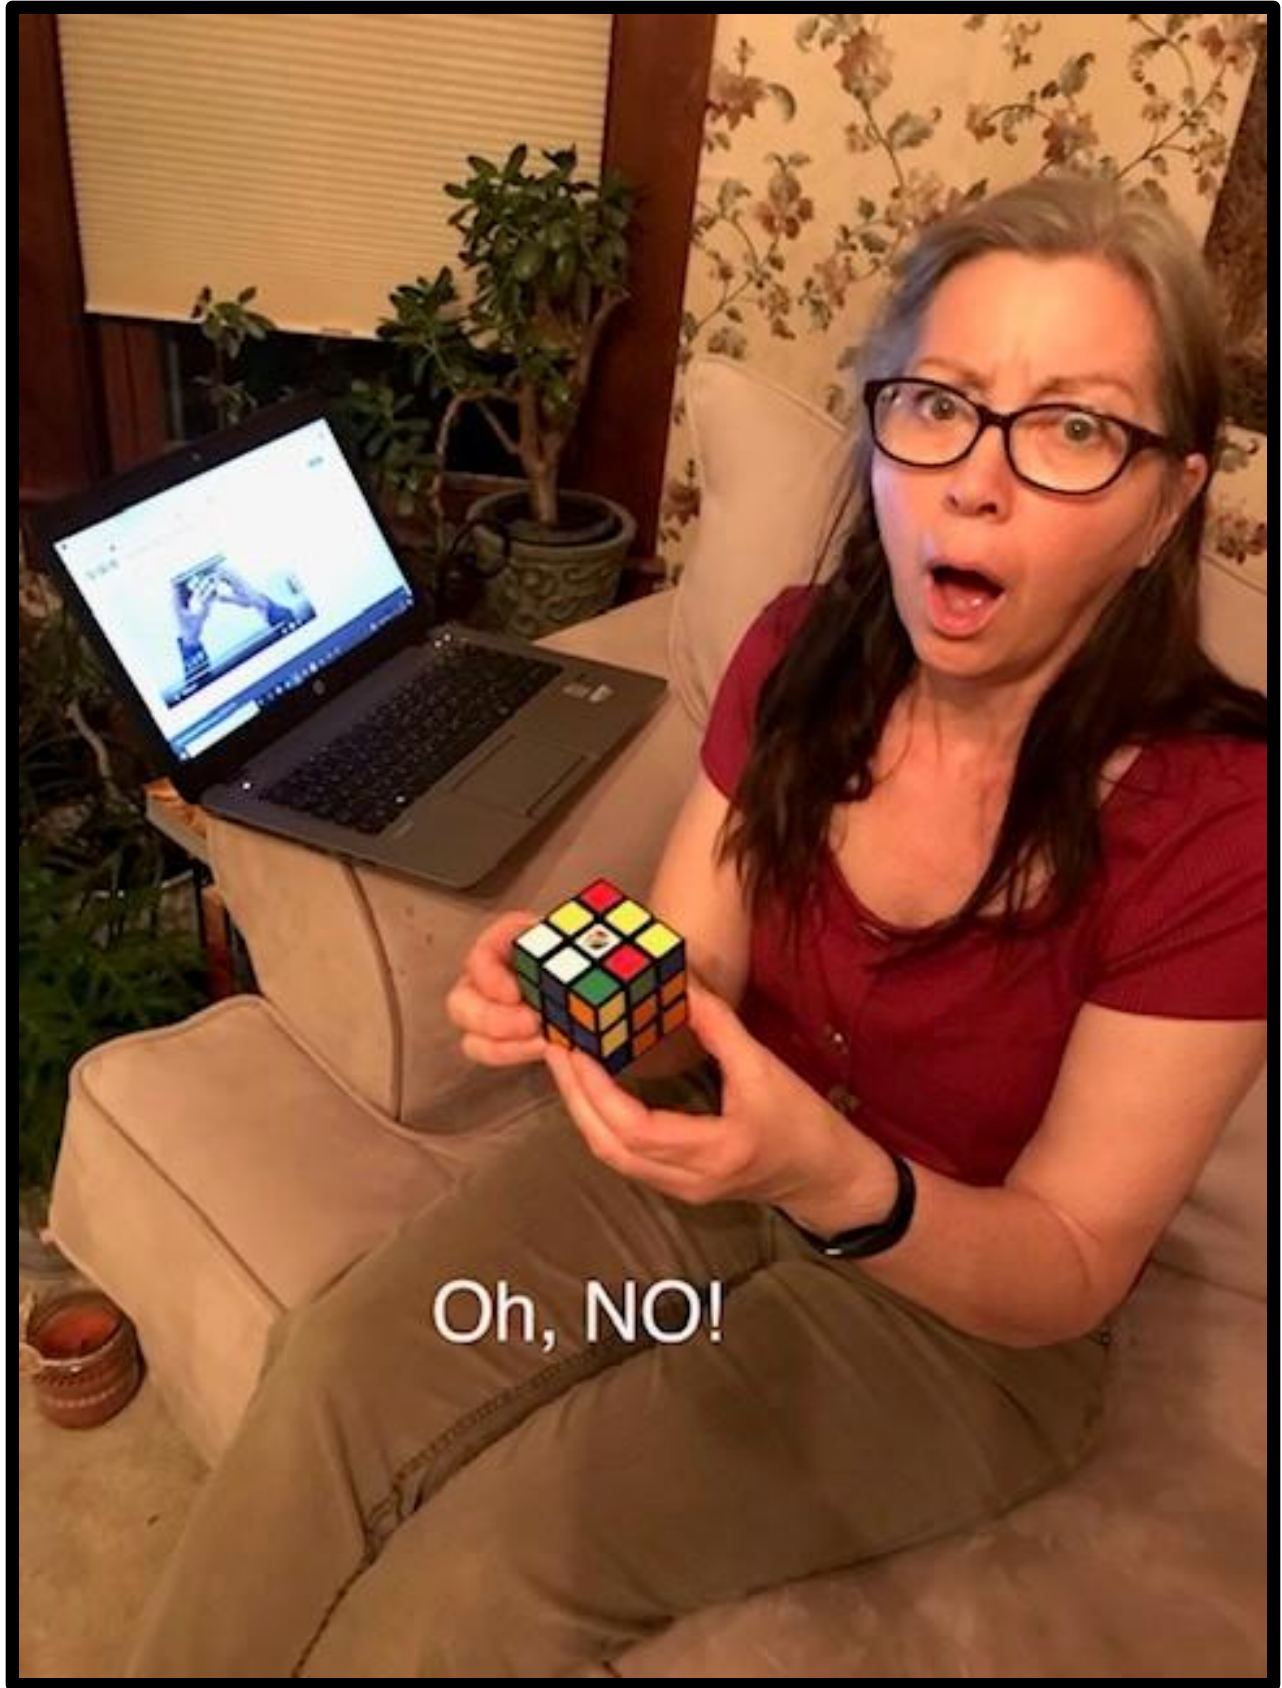

More Algorithms...
L'URU'LU...

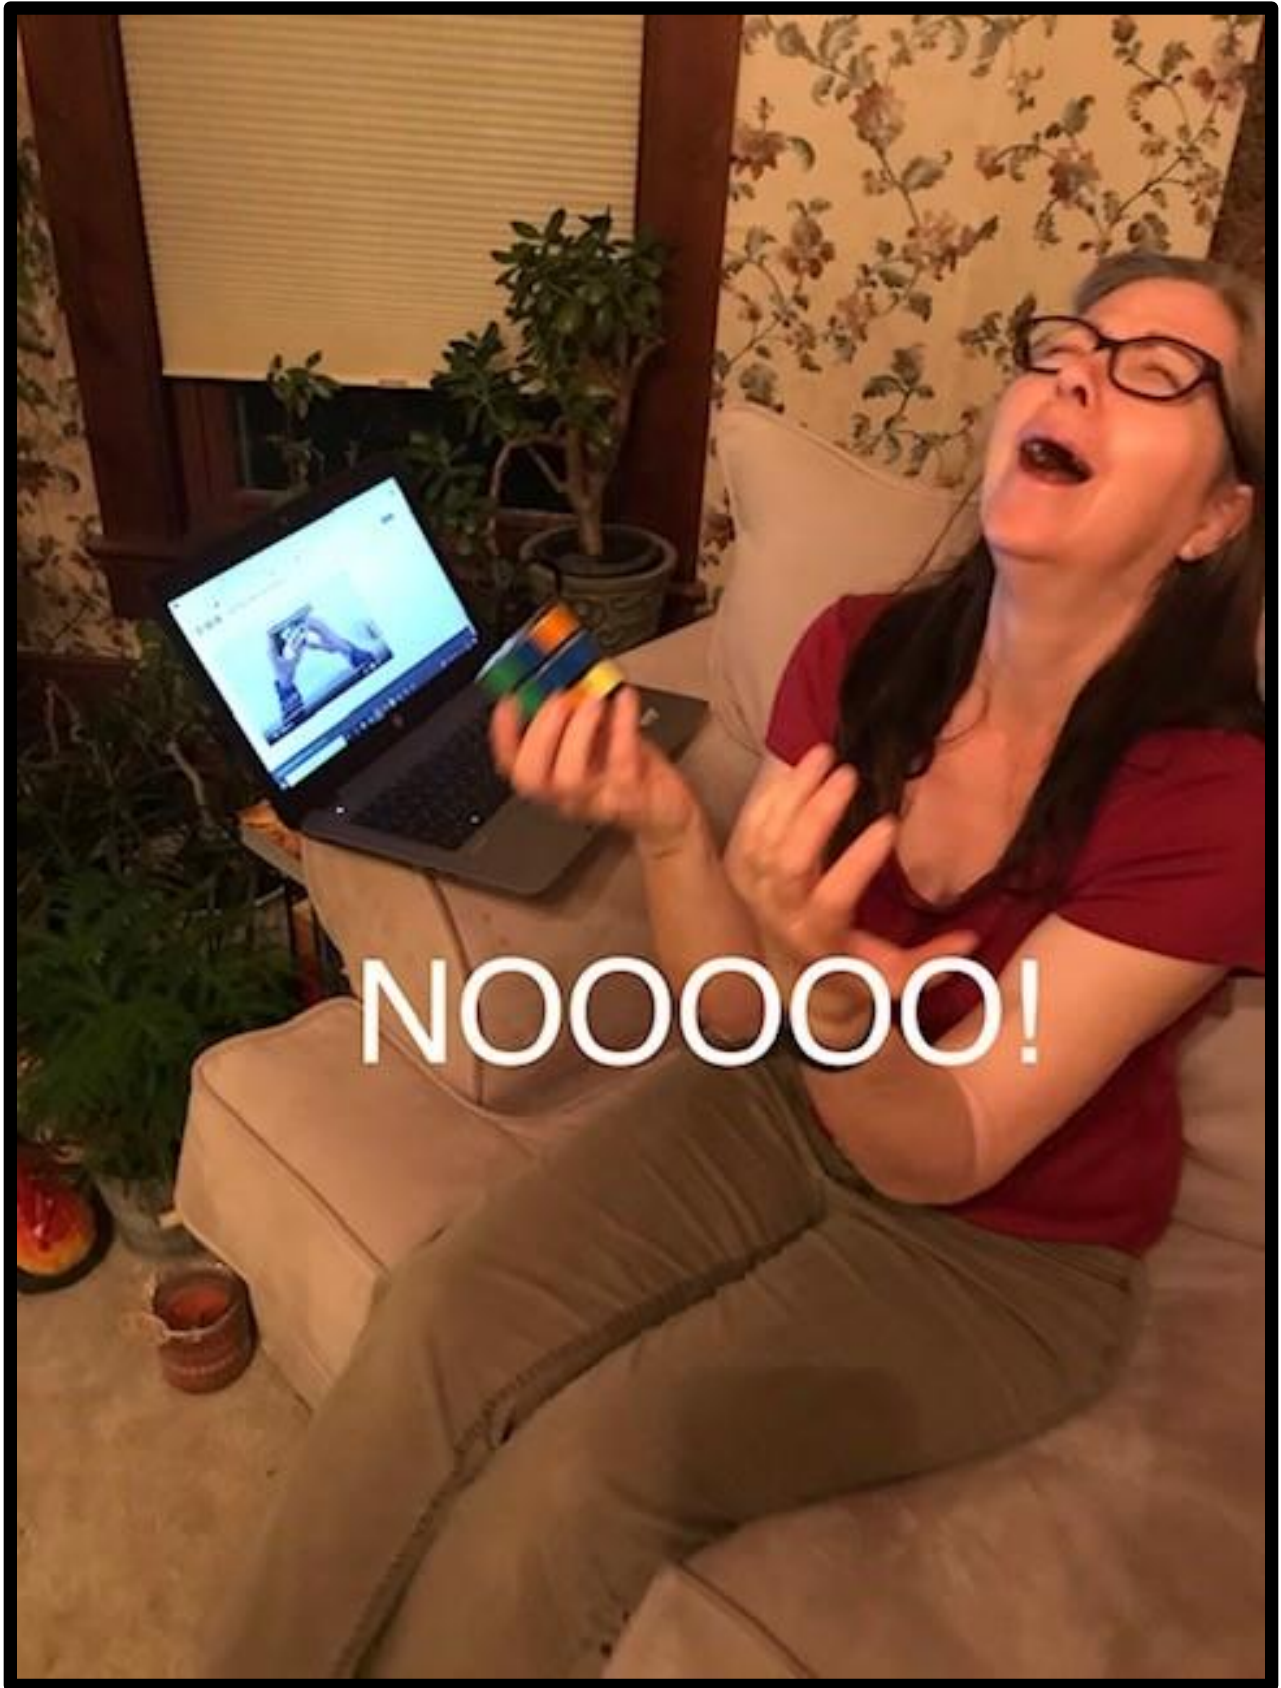

Clockwise... counter
clockwise... clockwise again.
Which way does a clock go?
Oh, yeah... this way.

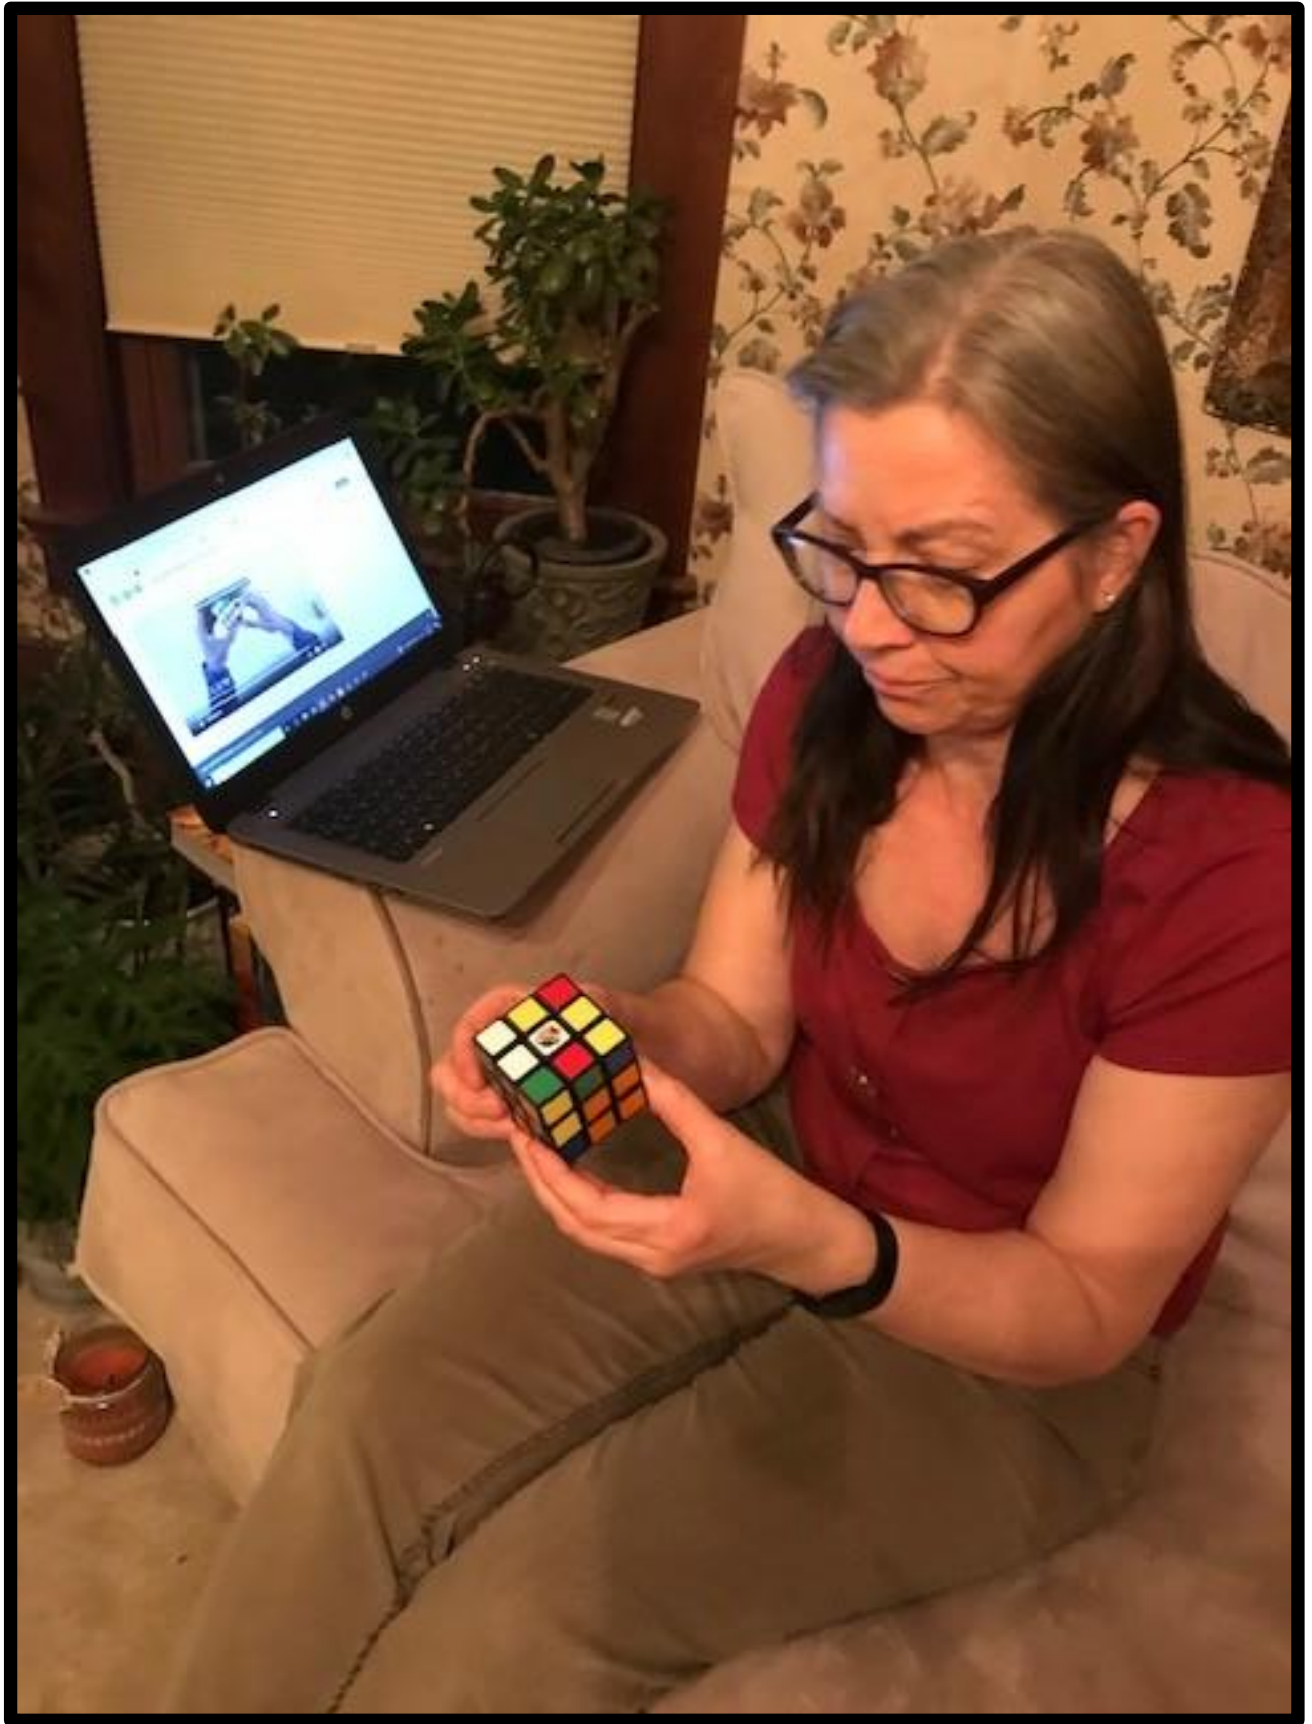

One more turn...

Oh, NO!

NOOOOO!

Back to square
one... tomorrow.
